## HOUSE KILLS BEITLER TAX REFORM BILL

By Refusing to Concur In  
Senate Amendments To  
The Measure

DESTINED TO EXTRACT  
TEETH OF WARNES  
TAX LAW.

### TURNER WAS OBDURATE

And Rendered An Opinion  
That Entire Bills For  
Emergencies Must Re-  
ceive Two-Thirds Vote  
and Not a Single Clause—  
Democrats Wanted Opin-  
ion Read.

(ASSOCIATED PRESS TELEGRAM)  
Columbus, March 23.—The house  
this morning virtually killed the  
Beitler bill which was supposed to  
pull the teeth from the Warnes law,  
by refusing to concur in the senate  
amendments to the bill. The vote  
by which the house refused to con-  
cur in the senate amendments stood  
65 to 34. Majority Floor Leader  
Whitmore of Summit, said it was  
generally understood the senate  
would refuse to recede from its po-  
sition concerning the amendments,  
that no conference committee would  
be asked for and that the Beitler bill  
would therefore be dead. The result  
would be that the Warnes law as-  
sessment would begin their work on  
April 5. The Beitler bill would  
have placed this work upon county  
auditors.

Senate leaders declared the higher  
body would ask for a conference  
committee on the Beitler bill. This  
would insure that the measure could  
be kept alive indefinitely and either  
killed by disagreement of the com-  
mittee or revived by an agreement  
within the next few days.

Officially, Attorney General Turner  
of opinion that every part of an  
emergency measure, and not merely  
the emergency clause, must receive a  
two-thirds vote of both houses, may  
never be presented to members of  
the general assembly to whom it was  
addressed.

Minority Leader Kramer today  
sought to have it read to the house,  
but his request was ignored. Major-  
ity Leader Whitmore, in explain-  
ing his motion for reconsideration  
of the vote on concurrence in the  
senate amendments to the Beitler  
bill, referred to the attorney gener-  
al's opinion.

"I would like to see that opinion,"  
said Representative Kramer. "I read  
about it in the newspapers this morn-  
ing but I haven't seen it. I heard it  
had been presented last night, but it  
never was read."

Representative Whitmore said:  
"I don't think any one ever asked  
for that opinion. Somehow, it was  
forthcoming anyway."

Representative Kramer in reply  
indicated that even if no one, had  
asked for the opinion, this constituted  
no good reason for the officers of  
the house refusing to read the opin-  
ion when it had been sent.

Talk of early adjournment was  
given impetus among legislators to-  
day by the calling of a Republican  
caucus of both houses to be held to-  
night. Majority leaders intimated  
that a main subject of discussion  
would be the formulation of a defi-

## JUDGE SAID TO BE SHORT IN ACCOUNTS

Discrepancy of \$1,944 Al-  
leged Against Montgomery  
County Probate Court

IN A PRELIMINARY RE-  
PORT OF STATE EX-  
AMINERS.

### MAYOR OF STEUBENVILLE

And Other Officers of That  
City With Dayton Judge  
Are Recommended for Re-  
moval From Office, and  
Governor is Urged to Rec-  
ommend Legislation Giv-  
ing Him That Power.

(ASSOCIATED PRESS TELEGRAM)  
Columbus, March 23.—In a report  
made today by examiners of the state  
bureau of accounting, it is alleged a  
discrepancy of \$1,944 has been discov-  
ered in the accounts of Judge Roland  
W. Baggott, of the probate and juve-  
nile courts of Montgomery county.

The report asserts the alleged short-  
age covers a period from February 9,  
1909, to the present date. The exam-  
iners who filed the report are T. W.  
Jones and Robert Dumer Muth. It is  
stated that the report made today is  
of a preliminary nature and that other  
reports from the state bureau of  
accounting in regard to the condition  
of the accounts of the two courts of  
Montgomery county are to be made  
later.

Copies of the report made today  
were also to be filed at Dayton with  
the county auditor of Montgomery  
county.

In a letter to Governor Willis, Au-  
ditor Donahy urged the governor to  
send a special message to the legisla-  
ture, recommending the passage of  
law that would give the governor  
power to remove certain officials and  
the auditor names those whom he  
recommends for dismissal from office.  
They include: Judge Baggott of Day-  
ton, George W. McLeish, mayor, Roy  
N. Morris, city solicitor, Hugh W.  
Patterson, safety director, and Service  
Director James P. Gavin, all of Steub-  
enville.

The report of state examiners on the  
alleged condition of affairs at Steub-  
enville is responsible for the recom-  
mendations of the auditor for the law  
that would permit of the removal of  
the Steubenville officials. State Ex-  
aminer John A. Bliss, made the report on  
Steubenville and it charges that  
houses of prostitution are allowed to  
flourish, that gambling houses  
flourish, there are many speakeasies  
and bootleggers. It is further alleged  
the city administration made little or  
no effort to give the public the neces-  
sary police protection during the  
strike of steel mill workers in 1913.

The official reports of the examiners  
in the Baggott case were turned over  
to the attorney general's department.  
Attorney General Turner's representa-  
tives declined to make any comment  
on any of the cases.

The report of the affairs of Judge  
Baggott alleges that the court assess-  
ed many fines yet the court's books  
do not show the collection of them.  
In a number of cases sentences of  
imprisonment were changed to a  
heavy fine, it is alleged, but there  
are no book records of the collection  
of the fine. Affidavits are presented  
signed by a number of persons who

Latest Photograph of Pope Benedict.

This is the very latest photograph for which Pope Benedict has  
posed. It was taken recently in the Vatican and has just reached the  
United States.

## FORMAL APOLOGY FOR THE DEATH OF JOHN B. McMANUS

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 23.—Secretary  
Bryan announced today that regret  
for the killing of John B. McManus,  
an American in Mexico City by Za-  
pata forces has been expressed on be-  
half of General Zapata by General  
Palafox, in charge at Mexico City,  
and that negotiations for paying in-  
demnities to the dead man's family  
were progressing satisfactorily.

The Brazilian minister at Mexico  
City has received the apology on be-  
half of Zapata. General Palafox al-  
so made a declaration that the men  
who killed McManus would be appre-  
hended if possible and punished. The  
amount of the indemnity, Secretary  
Bryan said, had not been determined.

## FORFEITURE

OF VESSEL, ONE OF PENALTIES AS-  
SESSED AGAINST CAPTAIN  
OR OWNERS

Of the Hamburg-American Liner That  
Attempted a Dash From Porto  
Rico Port.

(ASSOCIATED PRESS TELEGRAM)  
Washington, Mar. 23.—Proceedings  
under the neutrality resolution, passed  
during the closing days of the last con-  
gress, will be brought against the cap-  
tain or owners of the Hamburg-Amer-  
ican liner Odenwald, halted by shots  
across her bows, when she attempted  
to leave San Juan, Porto Rico, without  
clearance papers, last Sunday. This  
was made known today at the white  
house.

Attorney General Gregory said as he  
went to the cabinet meeting that he  
had not determined whether action  
would be brought against the captain  
or the owners, but that definite steps  
would be taken within the next few  
days.

Forfeiture of the vessel to the United  
States is among the penalties which  
may be imposed in cases like this estab-  
lished that she attempted to leave port with-  
out clearance papers for the purpose  
of carrying supplies of any kind, or  
men to a belligerent ship at sea.

All the facts in the possession of the  
treasury and war departments have  
been communicated to the department  
of justice. It is understood that the  
acting United States attorney at Porto  
Rico has been instructed to prepare  
the case.

### ANOTHER RELIEF SHIP SAILS.

(ASSOCIATED PRESS TELEGRAM)  
New York, March 23.—The steam-  
ship Gautemala, sailing today for  
the Belgian relief work of the  
American Red Cross, carries 74,000  
pounds of clothing and hospital sup-  
plies and surgical instruments. The  
shipment is valued at more than  
\$23,000.

## CELLS

BUILT AT INSTANCE OF TERRE  
HAUTE MAYOR INTO WHICH  
WERE THROWN

Progressive Election Officials Is  
Testimony of Member of Alleged  
Gang Who Confessed.

(ASSOCIATED PRESS TELEGRAM)  
Indianapolis, Ind., March 23.—  
Through John P. Nugent, former as-  
sistant chief of police of Terre Haute,  
Mayor Donn M. Roberts was called a  
the instigator or the one who ap-  
proved the acts, which the federal  
government contends, in the trial of  
the Terre Haute election cases, re-  
sulted in corrupting the election of  
last November. Nugent, who has  
pleaded guilty, today related his part  
in the alleged conspiracy.

"Roberts told me he did not want  
anybody on the board he could not  
handle," testified Nugent, in telling of  
the part he played in preventing the  
regularly-chosen election board from  
serving in the Taylorville precinct, from serving.  
"He told me to see Joe Jeffers, get him  
to select the board and see that it  
served."

Nugent said Jeffers, who has  
pleaded guilty, selected the board  
and "framed the arrests," of the  
progressive members and that Rob-  
erts ordered the members held in  
the detention cells.

"Major Roberts," continued the  
witness, "ordered the construction  
of the detention cells a short time  
before the election, saying 'we'll  
have a rush about then.'" Nugent  
said the cells were filled the night  
before election, with election offi-  
cials and workers "opposed to the  
Roberts machine."

Oakland and San Francisco are ag-  
itating for a connecting suspension  
bridge nine miles in length.

(ASSOCIATED PRESS TELEGRAM)  
New York, March 23.—The Per-  
sian war relief committee with head-  
quarters in this city today received  
the cablegram from Tiflis, Russia.

"All villages burned except three.  
Women taken captives. Fifteen  
thousand refugees in the American  
Mission. Great danger."

"The French mission has been de-  
stroyed. There are 19,000 refugees  
in Russia."

The mission was sign by A. An-  
loff, a Russian contractor of Tiflis.  
A Russian in Northwestern Persia  
not far distant from the Russian  
border. A previous dispatch from  
Dulfa, Persia received here March  
21 was to the effect that the Turk-  
ish consul at Tiflis, at the head  
of 70 Askaris, recently attacked the

## Murder of Three Brides Charged Against London Man; Each Found Dead In Bath Soon After Wedding

(ASSOCIATED PRESS TELEGRAM)

London, March 23.—Charged with the murder of three women,  
George Joseph Smith, in the Bow street court today, heard public  
prosecutor Bodkin declare he had made away with three of his wives  
the crime in each case being committed shortly after he had married  
them. Each of these women was found dead in her bath.

Smith has described himself as a man of independent means.  
According to the evidence of Scotland Yard, which has been inquir-  
ing into the deaths of these women, Smith made use of various ficti-  
tious names in his matrimonial ventures. The women he married  
were found dead a few days after the ceremony. Verdicts of acciden-  
tal death have been returned, but now certain of the bodies have been  
exhumed with the result that the charges of murder have been pre-  
ferred.

Smith, according to the police, was born in London, the son of an  
insurance agent and is 45 years of age.

## Army Transports to Progreso To Bring 100,000 Bales Of Sisal Hemp to United States

(ASSOCIATED PRESS TELEGRAM)

Washington, March 23.—Dispatch-  
ing army transports to Yucatan to  
bring sisal for hemp from Progreso  
to the United States is being consid-  
ered to assure supplies for Ameri-  
can twine factories and farmers. Sen-  
ator Pomerene, who conferred with  
state department officials today on  
behalf of Ohio twine manufacturers  
said the International Harvester  
company had arranged for 100,000  
bales of sisal to be distributed among  
various twine manufacturers in the  
United States.

"In order to get this supply," said  
Senator Pomerene, "I am informed  
the government is considering send-  
ing transports to Progreso in the  
near future."

Denial that there has been any  
burning of sisal grass or looting in  
Yucatan, was made in a message to  
the Carranza agency here today from  
Vera Cruz.

"General Alvarado is in complete  
possession of the situation in Yuca-  
tan," said the message, "and order  
generally prevails. There has been  
no burning of sisal grass or any  
looting whatsoever."

The dispatch also informed the  
Carranza agency here that "it is en-  
tirely false that there is any dissen-  
sion between the first chief and Gen-  
eral Pablo Gonzales and equally false  
that any attack on Vera Cruz is im-  
minent."

### BRITISH CONSUL IN NEW ORLEANS HAVING COME FROM PROGRESO.

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 23.—Arthur  
Pierce, British vice consul at Pro-  
greso, reported to the British em-  
bassy today his arrival at New Or-  
leans but made no mention of hav-  
ing been expelled from Mexico by Car-  
ranza. Pierce reported he brought

his family away because conditions  
made him fear for their safety. The  
French embassy had no information  
from its vice consul who also was re-  
ported expelled by Carranza.

Percy T. Holmes, British vice con-  
sul at Guadalajara sent a detailed  
report of the demand which Carranza  
forces made upon him on Febru-  
ary 8 for all the arms and ammuni-  
tion in his consulate. He refused to  
deliver them and was threatened  
with death at the time but kept the  
arms nevertheless.

Advices reached the state depart-  
ment today that General Villa's forces  
had taken Camargo and that his  
main body was at Reynosa, 50 miles  
from Matamoros. Civilians were  
leaving the latter town to escape the  
military operations.

Reports to the department said  
Piedras Negras was quiet but sanita-  
tion was bad owing to absence of  
municipal authorities. Three thou-  
sand Villa troops are declared to be  
in the district. Looting reported  
yesterday according to the state de-  
partment advices today, was done by  
the Carranza forces under General  
Herrera.

### SECRETARY McADOO IS RECOVERING.

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 23.—Secretary  
McAdoo was at his home today con-  
valescing from an operation for ap-  
pendicitis, performed at a local hospi-  
tal 10 days ago. Physicians, it  
was said, intended to keep Mr. Mc-  
Adoo "very quiet" for a month.

Mr. McAdoo's physicians said to-  
day that while he was very weak  
there was nothing alarming in his  
condition and that his recovery so  
far had been satisfactory, although  
slow, because he had delayed the op-  
eration for appendicitis until the last  
moment. Continued quiet alone they  
say, was necessary.

## GERMANS REPORT NIGHT ATTACKS WERE REPULSED

(ASSOCIATED PRESS TELEGRAM)

Berlin, March 23.—(By wireless  
to Sayville, L. I.)—The following re-  
port was given out today at the war  
office:

"Two French night attacks near  
Carency, northwest of Arras, were  
repulsed."

"In Champagne, German troops  
successfully blew up mines and re-  
pulsed a night attack north of  
Beaunejour. Minor French ad-  
vances near Combray. Ampermont  
and Flirey were without success. An at-  
tack against the German positions  
northeast of Badonviller broke down  
under the German fire. The enemy  
sustained heavy losses."

"Hostile aviators again threw sev-  
eral bombs on Ostend. No damage  
was done to the military establish-  
ments, but several Belgians were  
killed or wounded. Northwest of  
Verdun, a French aviator was shot

down. A French aircraft manned  
with two French non-commissioned  
officers was forced to land near Fri-  
burg. The occupants of the aeroplane  
were captured."

"German troops are pursuing the  
Russians who were driven from  
Memel, East Prussia. The Germans  
occupied the Russian town of Krot-  
tingen across the border from Memel,  
and freed more than 3000 Germans  
who had been dragged away from  
their homes by the Russians. At-  
tacks made by Russian troops on  
both sides of the Orzye river in Rus-  
sian Poland were repulsed."

### Sing Sing Warden Advocates a New Reform for Prison

New York, March 23.—Thomas  
Mott Osborne, warden of Sing Sing  
prison advocated a new form of  
indeterminate sentence for male  
factors in an address before the  
Parents' league of New York, here  
today. He suggests that members  
of the league write members of the  
legislature in support of a measure  
to provide that a man should be sent  
to prison until he should be pro-  
nounced "cured."

## GATEWAY TO HUNGARY IS NOW OPENED

Russia Expected to Inaugur-  
ate Early Advance In  
That Direction

AS CRACOW IS NOW  
ONLY FORTIFIED  
CITY

### IN PATH OF THE INVADERS

Latest News From Dardan-  
elles—Greece Concerned  
Over Bulgaria's Attitude  
In the Balkans—German  
Aeroplane Reported to  
Have Attacked Belgian  
Relief Ship.

(ASSOCIATED PRESS TELEGRAM)

London, March 23.—The fall of  
Przemysl is characterized here as the  
throwing down of the last bar of the  
gateway into Hungary and an early  
Russian advance in that direction is  
anticipated in England. The German  
press praises warmly the gallantry of  
the defenders of this Galician fortress,  
while at the same time it does not at-  
tempt to minimize the effects of its  
surrender and expresses uneasiness  
concerning the result on the long eas-  
tern battle front of the Teutonic allies.

The latest authentic information  
from the Dardanelles sets forth positi-  
vely that only the secondary defen-  
ses of the straits have suffered from  
the bombardment of the allied fleet; the  
other forts in the narrow are intact.  
This report finds confirmation in the  
present status of the diplomatic situ-  
ation in the near east, which indicates  
that the Balkan states are no nearer  
intervention in the quarrel than they  
were when the battleships of the allies  
first appeared off the Dardanelles.

In spite of the optimistic tone of  
the Greek press, it is not generally be-  
lieved in London that the entente  
powers have made any further ad-  
vances to the new Greek cabinet,  
while in Grecian circles there is grow-  
ing an uneasy feeling that Bulgaria  
may again assert her primacy in Bal-  
kan affairs by taking the first step to-  
ward active participation in the strug-  
gle.

The full along the western battle  
front now apparently is being dupli-  
cated in the east, where nothing more  
than isolated actions are being re-  
ported.

Aviators of the allies have re-  
tained for the German raid on Paris,  
by forays over territory occupied by  
the German army.

Interest in the blockade centers to-  
day on the attack of German aero-  
planes on Dutch cargo ships, one of  
which flew the flag of the Belgian re-  
lief committee. Holland is awaiting  
information from Berlin before mak-  
ing a formal protest in this connec-  
tion.

### Provisions Are Very Dear In Poland, Is Merchant's Report

(ASSOCIATED PRESS TELEGRAM)  
Lodz, Russian Poland, Mar. 23.—Via  
London.—A German merchant of this  
city who has just returned from a trip  
to Warsaw, says a general feeling of  
uncertainty and anxiety concerning  
the future prevails in the capital of  
Russian Poland.

Provisions are very dear, and for  
some days past there has been virtu-  
ally no tea, sugar, tobacco or flour to  
be had. People are depressed. All  
officials have remained in the city and  
the imperial bank is still doing busi-  
ness, but otherwise things are very  
quiet.

### Judgment is Given of Over a Million By Supreme Court

(ASSOCIATED PRESS TELEGRAM)  
Columbus, March 23.—By a de-  
cision of the Supreme court, Eli M.  
West, receiver of the Columbus, Dela-  
ware & Marion traction company, is  
given a judgment of \$1,032,252.25  
against John G. Webb, of Spring-  
field, director and president of the  
company. West alleges that Webb  
appropriated stocks and bonds of the  
company aggregating \$300,000. The  
decision affirms the Clark county  
Court of Appeals.

### PLAN GREATEST REVIVAL EVER IN NEW YORK CITY

(ASSOCIATED PRESS TELEGRAM)  
New York, Mar. 23.—A movement  
looking toward the inauguration of a  
great religious revival here was start-  
ed today as the result of a conference  
yesterday of 70 clergymen, represent-  
ing five religious denominations. It  
was decided to hold a meeting each  
week to arrange for the proposed re-  
vival. The Rev. Charles W. Welch,  
who presided, predicted that the great-  
est revival in the history of the city  
soon would be under way.

## Last Desperate Sortie Of Przemysl's Defenders Was Heroic One but of No Avail

(ASSOCIATED PRESS TELEGRAM)

Petrograd, Via London, March 23.  
—Events which preceded the final  
desperate sortie of the beleaguered  
garrison in the Austrian fortress of  
Przemysl designed to break through  
the encircling ring of Russian troops,  
are described in an official commu-  
nication issued here last night. The  
statement says:

"During the last days before the  
final sortie, the garrison received in-  
creased rations. Each soldier was  
given biscuits to last five days, warm  
new clothing and new boots. Offi-  
cers were instructed to explain to the  
troops that if they returned to the  
fortress, an inglorious fate awaited  
them and consequently they must  
pierce the Russian front at any cost.  
An easterly direction was chosen for  
the sortie as the line of least resist-  
ance as well as because it led to the  
district where the Russians had  
large stores of arms and ammunition.  
More than 20,000 men were ordered  
to participate in the sortie, but sev-  
eral units refused to move despite  
the urging of the commanders.  
The sortie was promptly and de-

tisively defeated. It was repulsed  
principally by territorial troops and  
reserves. The total number of the  
captured garrison exceeded Russian  
expectations.

"The following is the text, in part,  
of an order issued by General Kur-  
manek to the garrison of the fort-  
ress on March 18, the day before the  
sortie:

"Heroes, I announce to you my  
last summons. The honor of your  
country demands it. I shall lead you  
to pierce with your points of steel  
and iron, the circle of the enemy.  
"Oh then! March on! Even fur-  
ther, unsparing in your efforts until  
we rejoin the main army which after  
a hard fight now nears us. We are  
on the eve of a great battle, for the  
enemy will be reluctant to abandon a  
prize he has coveted so long. Know,  
then, true defenders of Przemysl,  
each must have but one thought.  
That is forward, ever forward.  
"Soldiers, we have shared our  
last provisions. The honor of our  
country and ourselves forbids that  
after our glorious struggle we should  
fall an easy prey to the ene-  
(Continued on Page 2, Col. 3.)

## LIFE INSURANCE COMPANIES

They Are Closely Observing Public Health Condition

An examining physician for one of the prominent life insurance companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because of kidney trouble, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing real healing and curative properties, would be a blessing to thousands. Dr. Kilmer & Co., Binghamton, N. Y., who prepared Dr. Kilmer's Swamp-Root, the well known kidney, liver and bladder remedy, claim that judging from evidence received from druggists everywhere, who are constantly in touch with their customers, and also indisputable proof in the form of grateful testimonial letters from thousands of reliable citizens, this preparation is remarkably successful in sickness caused by kidney and bladder troubles. Every interesting statement they receive regarding Swamp-Root is investigated and no testimonial is published unless the party who sends it is reported of good character. They have on file many sworn statements of recoveries in the most distressing cases. They state that Dr. Kilmer's Swamp-Root is mild and gentle in its action and its healing influence is soon noticed in most cases. Swamp-Root is purely an herbal compound and Dr. Kilmer & Co. advise all readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—50c and \$1.00. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Newark Daily Advocate.

Trying to drown your sorrows in the flowing bowl may only make your head swim.

## Asthma Can Be Cured

By taking Ball's New Asthma Remedy. This medicine is pleasant to take. No irritating smoke to inhale. No narcotic drugs used, where there is danger of forming a drug habit. Just a remedy that goes to the seat of the trouble, builds up the system, acts on the mucous membrane of the bronchial tubes and lung cells, giving almost instant relief.

One large bottle of this remedy will be sent with full directions, post paid to any address on receipt of price \$1.00.

Dr. H. M. BALL

P. O. Box 217 Akron, O.

## THE HOME BUILDING ASSOCIATION COMPANY

OF NEWARK, OHIO

You Have a Dollar

In your pocketbook or tucked away at home, and you have not decided just how you will spend it.

Here is a suggestion. Why not start a savings fund in this Home Building Association Company with it?

Many of our Steady Savers started with this amount. Today they have ever-increasing financial reserves here, earning them a per cent interest regularly.

We earnestly invite you to get started now. Bring that dollar here where it will be safe while at work for you.

You will hardly notice this first deposit, or the small, regular deposits that follow.

BUT YOU WILL NOTICE THE RESULTS.

A dollar starts the habit.

We welcome your account today.

## The Courts

**Petition Filed.**  
Attorney Ray Martin has filed a petition in common pleas court for William Davis, on a promissory note and account, which totals \$224 with interest.

**Held for Sheriff.**  
Tobe Shumaker was arrested at the home of a brother in Second street today by Sheriff Chas. H. Swank for officials of Fayette county, it being alleged that he contributed to the delinquency of a fourteen year old girl.

**Squire Scott's Court.**  
Robert Campbell, a farmer residing about a mile west of the city, and who was charged with resisting an officer in making an execution, was arraigned in Squire F. S. Scott's court yesterday afternoon and was found guilty as charged in the affidavit and bound over to the grand jury in the sum of \$200. Mr. Campbell furnished bail.

**Justice Jones' Court.**  
The case of the State of Ohio against John Fickle of Buckeye Lake is still on trial before Justice D. M. Jones, the case having begun Monday morning at 9 o'clock. Fickle was arrested on the affidavit of Game Warden Milinski, who charged the defendant with having fish in his possession which were caught illegally. Milinski secured a "live keep" near Fickle's home in which were a number of Lake Eries, sun dabs, suckers and herring, which he claims were not caught with hook and line. Fickle denies ownership of the keep claiming that it is the property of a score of fishermen who frequent the lake. Several dozen witnesses were called on the case and it is being warmly contested by Russell & Sculler for the defendant and a Columbus attorney and Phil B. Smythe for the state.

**"BUD" SOLINGER HAS BOUT IN COLUMBUS.**  
Bud Solinger, the crack little West End 110 pounder who is under the management of R. B. May has a bout on March 29, in Columbus, O. before the Queensberry A. C. He fights George Crawford of Philadelphia 6 rounds in preliminary to the Bryan Downey—Ritchie Mitchell bout. He has been promised matches with other good boys if successful in the coming bout and is training faithfully and will be in perfect condition.

## HOUSE

(Continued from Page 1.)  
The program of work so that the session will not last more than two or three weeks longer. Liquor legislation also was to be discussed. Republican today said there is a growing belief that no vital change may be made in the present saloon license law.

Republican leaders discussed today the advisability of selecting a steering committee to direct informally the making up of calendars in both houses. This committee's function would be to co-ordinate better the work of both branches so that only the most important measures would be placed at the head of the calendars and receive early action.

Speaker Conover still insisted that his former expectation that the legislature would be in session until the last of April still stands true.

Small loan agents could charge no more than 3 per cent interest monthly, with an inspection fee of \$2 for loans of less than \$50 and they would be subject to supervision of a bureau of the state banking department, according to a substitute Lloyd bill to be presented today by a subcommittee of the senate judiciary committee. Salary assignments are validated. Under the present law compelling payment of salaries semi-monthly, an assignment of wages is illegal.

The substitute Lloyd bill would forbid the splitting of loans in order to double the inspection fee on a given total loan, and would prohibit the renewal of the inspection fee within four months. The bill was prepared by Senators Lloyd of Franklin, Pink of Hamilton and Myers of Marion.

### "UNPARDONABLE SIN" SUBJECT TAKEN BY EVANGELIST IRWIN

The theme of the evangelist at the West Main street Church of Christ last night was the "Unpardonable Sin." An unusually large attendance was present for Monday night, and five responded to the invitation at

This is the Stove Polish YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

### Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts for as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

Black Silk Stove Polish Works Sterling, Illinois  
The Black Silk Air-Drying Polish is made on the Black Silk Stove Polish Co. in Sterling, Illinois. It has no equal for use on automobiles.

A Shine in Every Drop

the close of the services. This number plus that of Sunday, nineteen, together with those who came previously makes a total of one hundred and forty-five to date. Last night, the evangelist said in part: "There is some difference of opinion as to what constitutes the unpardonable sin. There are three chief theories. (1.) Those who crucified Christ committed it. This however could not be it; for Christ on the cross prayed: 'Father forgive them; they know not what they do; and on the day of Pentecost those who had crucified Christ when repentant and obedient were pardoned and became members of the first Church of Christ, Acts. 2:47.

(2.) That those who persecuted the Apostles committed it. This too, cannot be substantiated for Saul participated in stoning Stephen as he too, was pardoned and became the great apostle to the Gentiles.

(3.) The third and last theory is that those who with a full knowledge of God's will, as revealed to them by God's Holy Spirit irreconcilably rebel against God's goodness and love; refuse to accept the terms of pardon offered through Christ and who in an indomitable spirit will not yield to the tender solicitations of the spirit calling them to a better life, commit it.

One thing is certain: those who perpetually reject Jesus Christ, refuse to accept Him who is the way, the truth, the life, do commit an unpardonable offense.

The Pharisees would not admit Christ's claims to divinity—they would not acknowledge His Sonship, although the evidences of it were clearly before them. They sinned against their light. They were incorrigibly opposed to the Master's will and attributed His beneficent works to Satanic agency.

Tonight the subject will be the "Religious Quandary." This will be one of the very best subjects of the entire meeting.

### Tight Hats Make Dandruffy Scalps

Specialist Gives Prescription to Prevent Baldness and Grow New Hair.

The tight fitting hats worn by men nowadays and women's stylish, but poorly ventilated hats are to blame for the hair destroying dandruff germ. Lack of fresh air and the pressure of the hat band shuts off blood circulation from the arteries of the scalp. The scalp tissue then gets weakened and is attacked by the microbe. The truth of this statement is proven by the fact that leading scalp specialists all over America have accepted it.

Folks who value their hair and would avoid baldness or thin, scanty hair, can therefore see that one sure way to regain long, healthy hair growth, is to destroy the dandruff germ—the worst of all hair enemies! How? Taking medicine internally to stimulate blood circulation through the scalp won't do it. Giving nourishment from the outside to the starved germ-ridden hair roots will do it!

Our great chemists have given the world one positive way of regaining long, heavy, wavy, silky hair in "wildroot," that wonderful old remedy that has never failed to destroy the dandruff germ. But "wildroot" as made nowadays is lots quicker in action than it used to be, for its nourishing, cooling vegetable oils are at once absorbed into the hair pores, and its first few days' use brings back a healthy scalp in which no dandruff germ can live. Druggists always keep "wildroot" on their shelves and are so sure of its positive results that they absolutely guarantee satisfaction or money back.

## LAST

(Continued from Page 1.)  
my. Be heroic warriors and we shall open the way."

AN ALLIED FLEET IS LYING OUTSIDE STRAITS, INACTIVE.

(ASSOCIATED PRESS TELEGRAM)  
Dardanelles, Tuesday, March 16.—Via London, March 22.—The warships of the allied fleet have made no attempt to reduce the Turkish defense about Kalid Bahr and Chanak Kalessi since March 7. Instead, they have been endeavoring to sweep the waters of the straits of mines.

The correspondent of the Associated Press made a personal inspection of the effects of the bombardment of March 6 and 7 on the Turkish positions at Kalid Bahr and Kale Sultani. Although the fire from the allied warships was accurate, the Turks suffered virtually no losses in the Kalid Bahr works. At Fort Mandieli, the works were slightly damaged and one man was wounded. There was but one casualty in fort Dardanelles. A total of 200 heavy and 700 light shells were hurled at this position and only one man was killed. The works were virtually undamaged. In every case, the damage wrought by shell fire on the shore forts was astonishingly small. The most noticeable results of this fire were small-shaped holes where shells had struck the soft ground.

Since March 7, a fleet of the allies has remained inactive outside of the straits. No progress has been made since the Kum Kaleh and Sedd-el-Bahr forts were silenced by a cross fire. Such a cross fire as this is impossible inside the mouth of the straits.

Officers here are absolutely optimistic as to the outcome of the operations of the allies against the Dardanelles positions. The foregoing dispatch as sent from the Dardanelles two days before the concentrated advance of the allied fleet against the Turkish positions which resulted in the sinking of the French battleship Bouvet, and the British battleships Ocean and Irresistible. This engagement took place March 18.

## Granville

(Special to The Advocate)  
Granville, March 22.—One of the most delightful entertainments yet enjoyed by The King's Daughters was that given by Mrs. E. J. Dorsey last evening at her home in Broadway, to about seventy-five members and guests. Miss Lily Jones, president of the organization during the past dozen years, was in the chair. Mrs. Jasper Jones led the devotional service, and Miss Blanche Horton read the secretary's report. Reports from the various committees were presented in concise form and showed the wonderful activity of this splendid society, engaged in good works, with no denominational barriers to hamper its usefulness. Following the business session, Mrs. Dorsey treated the guests with a charmingly arranged Victrola recital, greatly enjoyed by all present. Dainty and delicious refreshments were passed by the hostesses, assisted by Mrs. B. I. Jones, Miss Flora Hoover, Miss Carrie Howland, and Miss Minnie Twining. The next meeting will be at the home of Mrs. S. P. Tresize in College street.

"The Travelers," still in Honolulu, enjoyed another profitable afternoon yesterday under the guidance of Miss Ellen Davies and Mrs. J. D. Grissinger who had supplied themselves with many interesting facts concerning their respective topics. "Current Events," as presented by Miss Mary McKibben, proved of unusual interest. "Coral Reefs," by Miss Davies, was a fascinating study of activities of the lowest form of animal life: found only in the tropics, and its greatest perfection in the Mediterranean sea. "Father Damien and the Lepers," by Mrs. Grissinger, was filled with the spirit of heroism, not only of this man who devoted sixteen of the best years of his life to caring for the outcasts on Molokai, until he himself fell a victim to the deadly disease, but of countless other men and women who, today, are doing so much to ameliorate the terrible conditions surrounding these afflicted ones.

Mrs. Kull told of the little girl friend of Robert Louis Stevenson, who complained, "that because she was born on December 25, she never had any birthday." He replied that he would give her his birthday, and accordingly made out a legal document to that effect on condition that to her name Anna she would add that of Louisa. From that time on, little Anna Louisa has celebrated November 12—in all parts of the world—as her own birthday. As Mrs. Bourke Cochran she still continues the practice. The Parliamentary Drill, by Mrs. Lucy VanKirk, which closed the program, afforded great enjoyment as well as real profit to the club, the motion that "The Travelers" club pave Broadway," giving a fine opportunity for the quick wits of the women to give a sly hit at the present underfoot condition of this beautiful thoroughfare.

The president of Denison University, Dr. C. W. Chamberlain has been honored with an invitation to deliver an address before the Young Men's Christian Association at Ohio State University on Thursday, March 25. A dinner that evening will be honor guest at the Ohio Union on the University Campus.

The winners of the Ohio Collegiate title for the third consecutive season, will enter the Central Amateur Athletic Association's championships to be held at Cincinnati, March 25, 26, 27. Certificate of membership arrived last week. This association includes the best amateur teams in the following seven states: Ohio, Iowa, Illinois, Indiana, Michigan, Wisconsin and Minnesota. Each team is allowed to enter eight men. Rupp is eligible and will make the trip with the Big Red Squad.

Mr. Albert Guckert, who with his family has been touring California during the past two months, has returned to his home in Granville. Mrs. Guckert, with the little daughter, will remain in California until the weather here is more settled.

Mrs. T. F. Wright, who is yet in Los Angeles, Calif., is reported to be very greatly improved in health.

Mr. Arthur Prouty, a Denison graduate of 1911, has accepted a position in Hillsboro, O., and yesterday left Granville to assume his new duties.

Mr. John Raine of Rainville, W. Va., and his son Burton, a student at O. S. U., were week-end guests at the home of Dr. and Mrs. L. E. Davis in West Elm street.

Mrs. Fred Duxton is spending a few days with relatives in Mt. Gilead, O. The Three M's and L. Sewing circle will be entertained by Mrs. Oldham on Thursday afternoon, March 25, at the home of Mrs. Wealthy Moore, corner of Mulberry and West Maple streets.

Don't forget that Thursday afternoon you can secure your choice of seats for the Denison Glee Club concert on March 31 at Ullman's. There is a rumor that society with a capital S is to turn out on that occasion.

There was a meeting of the executive committee of the Ladies' Social Union yesterday afternoon to make the initial arrangements for the annual church supper to be given on Thursday evening, April 1. Mrs. Lillie Prouty was elected chairman, the leaders of the three divisions constituting her committee. Mrs. C. E. Frank, Mrs. C. W. Henderson, Miss Gladys Spencer.

The stores of Paris that are still doing business, even the high department stores, are reported now to be closed for an hour at noon, because there are not enough clerks left for one to relieve another at lunch time.

The coal required for one journey between New York and Liverpool by a model liner would fill 22 trains each made up of 30 ten-ton cars.

If You Are Nervous and are losing weight, we recommend that you take

BUY MADE IN U.S.A. PRODUCTS

## Buy or Manufacture, Which?

Shall Newark buy or manufacture electricity for street lighting? This question now uppermost in the minds of Newark people will be decided at the polls, March 30th, one week from today, when the 7000 voters of Newark will have an opportunity to express their views at the ballot box.

The Advocate believes in a full discussion of every problem relating to the welfare of Newark and with this thought in mind, this newspaper has reported fully and impartially the discussion of this subject before the city council and at two mass meetings. The matter has also been discussed by numerous readers through contributions to the newspaper while in the advertising columns for several days have appeared arguments both for and against the proposed bond issue. The utmost freedom has been given to the discussion in order that nobody might feel that one side had been presented to the exclusion of the other though early in the discussion the Advocate expressed its editorial opinion upon the subject. While this newspaper is very earnestly opposed to the proposed bond issue, it is also heartily and very earnestly in favor of fair play and a square deal. That is the reason the Advocate has been careful to present every argument that has been made in favor of municipal ownership of the lighting plant.

Municipal ownership is ideal under certain conditions but only when city government is efficient. Under our present system of city government a man who is wholly incapable and unfit to fill a position may be

placed in charge of costly equipment and it is a notorious fact that in American cities men are oftentimes elected to public office who possess little if any qualification for the positions they attempt to fill.

If assurance could be given that the city's plant would always be in competent hands and would be operated intelligently and economically that would be a good argument for municipal ownership. If the purchase of current at the present time would put the city at the mercy of the lighting company in future years, that too would be a strong argument in favor of city ownership. The fact is under our present system of partisan politics an incapable man may be elected or appointed. The fact is under the proposed arrangement the city will maintain its pole lines, wires and lamps and it now owns an electric light power plant, the building of which will not greatly depreciate in a few years. If at any time in the future the city can not make a satisfactory contract to buy current it can then just as easily as now go into the business itself.

The city now has a bonded debt of over a million dollars and the limit to which it can go will soon be reached. We are in need of a better sewer system, of more street paving and other improvements which can be obtained in no other way except by issuing bonds. We can buy electricity at a price which is admittedly low—a price below the city's cost of production. Why then in view of the fact that the city can in the future easily resort to municipal ownership if it is then desirable to do so is it not good business sense to buy current at the present time?

## Pneumonia Days.

(Dayton News.)

These are pneumonia days, according to the statisticians. That is, it is shown pretty definitely that pneumonia is more prevalent in spring than at any other season. And the only reason for it is that people are thoughtless about the matter; there is no occasion for any one to contract pneumonia, of course—no more than there is occasion for his contracting a lot of other diseases which are prevalent at one season or another.

Cold air does not cause pneumonia. The disease is unknown in the arctic. The natives of the frigid countries never have the disease until they visit us of warmer climates, and then they generally contract pneumonia and die. It is not in the night air. The night air is purer and better than the air of day. In fact, it is doubtful if any man ever contracted pneumonia out of doors.

Pneumonia is most frequently contracted in overheated rooms, especially where the ventilation is poor. So the first protection against the disease, it would seem, is plenty of fresh air—day and night. But not drafts—they are dangerous at all times. That is to say, where the air blows upon part of the body, chilling it, while the rest of the body remains warm, colds and congestions result—and pneumonia gets in its work when a fellow has a cold.

People do not contract colds from getting wet. You can fall into the river as often as you please, and continue the day with the clothes upon your back—or until the heat from the body has dried them—and you will not catch cold so long as you remain out of doors. But here you go so much as get the feet wet and go into a house and there sit with the

## ASTRONOMICAL EVENTS.

Evening stars: Mars, Saturn. Morning stars: Venus, Jupiter, Mercury. Brilliant star south of the Pleiades is Aldebaran.

the congregations of the Unitarian and First Calvinist Society, so that they now have a minister officiating for both, or the two in one.

There is a line example of community spirit, and it is said people are moving to Hardwick to enjoy the happy, enterprising, intelligent activities going on there. It attests to the greatness of the policy of every man working for all. It is the broad-mindedness, the unselfishness of life that wins. It not only advances the material well being of the community, but their social and moral status. Notice the community impulse has enriched the school curriculum. No longer the old Three Rs, but a curriculum of culture and aspiration. The standing of a community can always be told by the interest its individual members take in education.

## TAKE A LOOK IF YOU HAVE TIME

Most Expensive.

Throughout our lives our hearts are set on things we fondly hope to get for nothing. But believe me, friend, these things are costliest in the end.

When it is said of a man, "He is his own worst enemy," that means he drinks more liquor than is good for him.

Another of matrimony's deterrents is the fact that the bride is expected to kiss all of her husband's relatives.

Only men try to quit bad habits. A woman never admits she has one.

When a man is honest, polite and fair that is civilization. Savages seldom are honest and never polite.

Charity never is satisfactory. The best way is not to need it.

In ten or twelve years after a man leaves the town in which he was reared the people outside the circle of his intimate acquaintance learn that he has gone away.

No man who can hit 350 in his own particular line of endeavor lies obscure and unknown.

The ideal state of domestic felicity has been achieved by Byron Wilcutts. His wife never wakes up when he comes in late at night.

Instead of efforts being made to reform and educate the fools, everything possible is done to encourage them.

## Cheer Up!

Be thankful, son, for your small lot. And do not make a kick. For lots of things you haven't got. Would only make you sick. —Cincinnati Enquirer.

This logic offers comfort cold. And it's about as true. As that remark we've heard of old. "This hurts me worse than you."

## Banquet for Root.

The lawyers of New York do well to honor Elihu Root upon his retirement from Government service. The 16 years he has devoted to it have been marked by zeal, energy and executive intelligence. To have been a great Secretary both of War and of State, and then to have become at 63 a leader in the Senate is no slight career for an American citizen. —New York World.

## The Real Issue.

The issue between Great Britain and Germany on the sea has long ceased to be a question of rights. It is simply a question of what remains to be thought of in the cheerful pursuit of making life more miserable for the other fellow. —St. Paul Pioneer Press.

## Rapid Actors Then.

The avidity of the Mexicans in getting into trouble is equaled only by their scramble to get out when they think the United States is about ready to look at them through the sights of some of those big guns. —Pittsburg Post.

## Population of Country Districts In Licking County, Much Less In 1910, Than 75 Years Ago

Editor of the Advocate: The following table shows the population of each township in Licking County, as shown by the United States census for the years 1840, 1880, 1910:

Township.	1840	1880	1910
Bennington township	1244	884	726
Bowling Green township	1464	992	715
Burlington township	1423	1073	961
Eden township	853	767	588
Etha township	1076	1166	1018
Fallsburg township	910	829	673
Franklin township	1131	818	590
Granville township	2255	2114	2442
Hanover township	943	1236	1239
Harrison township	1049	1329	1107
Hartford township	1355	1164	1175
Hopewell township	1150	1062	620
Jersey township	922	1348	991
Liberty township	1115	752	654
Licking township	1215	1256	917
Lima township	729	1803	1205
Madison township	1119	929	1412
Mary Ann township	866	951	723
McKean township	1424	981	823
Monroe township	1156	1339	1533
Newark township	4138	14613	27017
Newton township	1247	1332	1165
Perry township	994	1032	824
St. Albans township	1515	1872	1171
Union township	2219	1872	1996
Washington township	3048	1521	2563

The above figures are interesting to me, as the loss of population in the country districts is so surprisingly large since 1840 that a person naturally wonders what is the cause. No doubt many people since 1840 have followed the advice of Horace Greely. "Go West, young man," but the phenomenal growth of Newark also points out the fact that a very great number of people have left the farms and gone to the cities. Now the question is, why this rapid movement to the cities? Surely one cannot say that the opportunities are greater in the cities. For the business depression today exists almost wholly in the cities. I am not an economist, but I firmly believe that the greatest menace to prosperity in the United States today is the unequal distribution of the people. I am not a pessimistic as Ferrero, the great Italian historian, who likens our present status of population to that of the Roman empire at the beginning of its decline. However, I submit the above figures, for which I am indebted to our hustling congressman, Hon. Wm. A. Ashbrook, and perhaps someone may be able to tell us whether this movement to the cities is normal, or whether this depletion of the country population is fraught with danger to our republic. Yours truly, W. H. ANDERSON.

## Spirit of the Press

## Advocate Auto Issue.

The Newark Advocate published its automobile edition Saturday. The issue contains 26 pages and was published in connection with the Newark auto show which is being held in the Arcade. The automobile issue contains news of interest to motorists and is a credit to the city of Newark. —Zanesville Signal.

## "Do It Now."

Legislature can't make up its mind—its massive mind—when to quit and go home. It isn't for lack of advice from the people back home. The general verdict seems to be, "Get the hook!"

The legislators should pack up their free jackknives and scissors and pencils and pens and inkstands and printed stationery and other plunder and give the people a chance to forget about them. They have still opportunity to leave considerable damage undone. —Cleveland Press.

## Concessions to Christian Spirit.

There has been some misunderstanding and, it appears, some hard feelings in regard to the manner in which we have conducted the church column, especially the position given the churches in the column. We regret this very much, as we did what we thought was right. Hereafter position will be rotated each week, giving first one church the top of the column and then another. We hope this will be satisfactory to all parties concerned. —Talulla (Ill.) Record.

## The Soldier's Bayonet.

Men have told me that in an actual bayonet charge troops attacked seldom wait for the attack to get right home; they discharge their guns, and if that doesn't stop the gentlemen coming on, just as the points of the bayonets are getting uncomfortably close, not seldom they up and run. I don't know how true this is; I shall one day. Anyhow, I don't wonder that few people want to wait to have bayonets stuck into them. It's a horrid weapon. As with all weapons, there's a wrong and a right way of using it. Our instructor used to tell us that if you thrust it into a man the wrong way you could never get it out again; you might be killed yourself half-a-dozen times over while you were struggling to get it free. —From the sayings of Corporal Briggs in The Standard Magazine.

## Steel and Iron.

According to trade advices from Birmingham, Ala., "the foreign demand both for steel and iron remains strong. If ships could be had the business would be immense." Such statements are a curious commentary on the views of Senator Penrose and his school of political economists that the Underwood tariff is detrimental to the iron and steel trade of the United States. If we can export largely, under it it should be clear that no foreign nation can successfully invade our home markets. The very fact that we are underselling foreign competitors is the best proof that the industry requires no tariff protection. —Philadelphia Record.

## The Liquor Issue.

Party leaders in three camps agree that the prohibition issue is likely to cut a large figure in the presidential campaign of next year. In view of this sentiment relative to the liquor issue among national party leaders it is interesting to recall the experience Ohio had with the issue in the last state campaign. That experience may indicate that these national leaders are taking the situation touching prohibition more seriously than the facts warrant. Ohio Progressives last fall made prohibition their chief issue. They polled a little more than 5 per cent of the total vote. Republicans, whose platform straddled on the subject, won more than 46 per cent; Democrats,

 She can't be very cold, I know. And yet I see her shiver. The poor girl has just found a beau. And now she's all a-quiver.

**The Thrifty Widow.**  
 Mr. Editor—I desire to thank the friends and neighbors most heartily in this manner for their co-operation during the illness and death of my late husband, who escaped from me by the hand of death last Saturday. To my friends and all who contributed toward making the last minutes comfortable and the funeral a success I desire to remember most kindly, hoping that these few lines will find them enjoying the same blessing. I have also a good milk cow and a roan gelding horse eight years old, which I will sell cheap. God moves in a mysterious way his wonders to perform. He plants his footsteps on the sea and rides upon the storm. Also black and white short cheap. —A Pennsylvania Exchange.

**Names Is Names.**  
 Learned Hand is a judge of the New York district court.

**Huh!**  
 He surely is a lazy pup. His actions make me frown. He waits for something to turn up. And always gets turned down.

**The Million Dollar Mystery.**  
 Dear Luke I go to call on a nice girl some times I have a friend with me as there is two girls and their mother is always in the way she seems younger than the girls this is a nice family please give your ideas in Sunday paper as we have a big time reading your ideas. —Regular Reader.

**Things to Worry About.**  
 The cannibals of New Guinea eat human flesh because they like it.

**Our Daily Special.**  
 The wages of sin are publicity.

**Luke M'Luke Says:**  
 The man who isn't known when he

gets out of his own house always puts up the loudest holler when a newspaper spells his name wrong.

What has become of the old fashioned grandma who carried her specs on her head and used to say, "Dear me, sus?"

Most of the men folks have a little respect for the aurora borealis. But a woman can wear a pink hat, a yellow coat, a red waist and a green skirt and feel perfectly serene.

The best way to keep a secret is to forget it.

Every man admits that he is foolish at times, but he is always glad that he isn't as foolish as other men.

Some men get hitched and are deeply surprised to discover that they have married chaperons.

Never despise the little things. The flea can bite harder than the elephant.

The man who is always yelping that every man has his price can usually be bought in for 30 cents.

Many a man who is a fire eating bear cat when he is downtown is a meek little tumblebug when he gets home.

The man who never speaks ill of women or religion may not have a boiled shirt and a pair of kid gloves, but he is a gentleman just the same.

Before he gets her he wonders why nature neglected to give her wings and a halo. After he gets her he discovers why.

The old fashioned man who was known as an old crank now has a son who has a self starting grouch.

When two women happen to hate the same people they are always bosom friends.

**New Zealand's Contribution.**  
 New Zealand alone contributed \$500,000 to the relief of Belgium. It begins to look as if all these favorable reports about the way they do things in New Zealand had a good deal of foundation. —Chicago Herald.

**Do You Believe It?**  
 "Do you think Titewad will recover from his present illness?" "Not a chance of it now. Some fool friend, in an effort to cheer him up, told the old fellow that cemetery lots and coffins were cheaper now than they had been for years. Of course, he is not going to neglect a chance to save money." —Richmond Times-Dispatch.

**What Did He Say?**  
 "I see blonds will be the style this year," remarked the idle rich man. "Is that so?" responded his brunette wife with a well-worn yawn. "In that case do you wish me to be one, or would you prefer a divorce?" —Kansas City Journal.

**RHEUMATISM GOES IF HOOD'S IS USED**

The genuine old reliable Hood's Sarsaparilla corrects the acid condition of the blood and builds up the whole system. It drives out rheumatism because it cleanses the blood thoroughly. It has been successfully used for forty years.

For rheumatism, stomach and kidney troubles, general debility and all ills arising from impure blood, Hood's has no equal. Get it from your nearest druggist today.

BY GWEN SEARS.

Times have changed since the art  
of cosmetics was classified with vul-  
garity or wickedness. The use of  
"make up" must be governed by an  
innate sense of good taste.It is an erroneous and general be-  
lief that the term cosmetics applies  
only to preparations, liquid, powder-  
ed and greasy, to soften, whiten and  
beautify the skin. Cosmetics origi-  
nally meant the art of preserving  
and embellishing the entire body,  
taking care of the constitution and  
the skin.Therefore, those of us who desire  
to become or remain beautiful ought  
to have a good knowledge of hy-  
giene and the value of skin and  
scalp foods, preserving, healing and  
beautifying the latter. As there is  
no woman who does not want to be  
beautiful, no matter what her other  
ambitions might be, it is very nec-  
essary, for every one of us, to be  
able to discern between good and  
bad cosmetic preparations and to  
possess a general and correct un-  
derstanding of their use.There always has existed and will  
exist a strong feeling against the  
use of any kind of cosmetic, without  
the least doubt a perfectly justifiedantipathy. It is for this very reason  
I have been playing the impartial  
side of the question and have come  
to the conclusion that, taking it all  
in all, it is undeniably necessary to  
use cosmetics.While we are in the bloom of  
youth it is evident that we do not  
need to help nature along; every-  
thing grows and rectifies almost it-  
self—that is the law of nature—  
Your gown may have been devised  
by the most ingenious of dressmak-  
ers, your hair may have been pret-  
tily and becomingly arranged; yet  
you would assuredly spoil the whole  
effect if you would not consider  
your complexion, the shape of your  
eyebrows, the color of your lips.But to return to our question:  
Should we use cosmetics? There can  
hardly be any doubt about the an-  
swer, even in the primmest maiden's  
mind—a young girl or a full-grown  
woman has absolutely no chance in  
business or society if her skin is  
covered with blemishes or superflu-  
ous hair. She has not half the  
chance if she has no particular blem-  
ishes, but simply an uncareful or  
complexion, dull hair, or badly  
brushed teeth. Should we use cos-  
metics? I should say we should.**Obituary****John Maginness.**  
The funeral of Mr. John Magin-  
ness, who died Monday morning at  
his home 98 South Third street, will  
be held on Wednesday morning at  
10 o'clock at St. Francis de Sales  
church. The Knights of Pythias will  
attend in a body and burial will take  
place at Cedar Hill cemetery.**John B. Patton.**  
John B. Patton, 56 years old, died  
Monday morning at 8 o'clock at his  
home near Hanover after a short ill-  
ness. He is survived by his widow  
and two children, G. E. Patton who  
lives at home and Mrs. S. C. Smith  
living near Hanover.Funeral services will be held Wed-  
nesday morning at 10:30 o'clock at  
Smith Chapel, Rev. Mr. Miller of  
Perryton officiating.**William Priest.**  
The funeral of William Priest,  
65 years old, a well known farmer  
who lived at Fallsburg, was held  
Tuesday morning at the Fallsburg  
baptist church, Elder U. G. Ruffner  
officiating. The services were in  
charge of B. D. Baughman of Black  
Run.Mr. Priest died Sunday at his  
home following an illness of four  
weeks of a complication of diseases.  
He has been in ill health for several  
months.  
He is survived by his widow, six  
children and two brothers. The  
children are Mrs. Flora Amos of  
Eleventh street, Newark, Mrs. Dossie  
Dunn and Mrs. Ada Weekly of Fall-  
sburg, Howard, Homer and Logan  
Priest of the home. The brothers  
are Willis and George Priest of  
Fallsburg.Mr. Priest was a native of Fall-  
sburg township and has lived most  
of his life there.**Mrs. David W. Turner.**  
Mrs. Virginia C. Turner, wife of  
David W. Turner died at her home  
in Twentieth street on Monday night  
at 7:30 o'clock, after an illness of  
uræmic poisoning. She was born in  
Zanesville in 1846 and practically  
her whole life has been spent in  
Licking county, she having resided  
in Newark for the past twenty-four  
years. In 1875 she was united in  
marriage to David W. Turner, and  
to this union were born, six children,  
two of whom died in infancy. Those  
left to mourn her death are the  
husband, Dr. F. R. Turner and Fred  
C. Turner of Cutbank, Mont., and  
Misses Bessie and Catherine Turner  
of the home.In early life she united with the  
Church of Christ and has been a  
sweet consistent Christian life. She  
was a good wife and mother and a  
true friend. No arrangements have  
been made for the funeral.**Mrs. A. M. Wells.**  
Johnstown, O., March 23.—Mrs. A.  
M. Wells, died at her home in John-  
stown, Tuesday morning at 9:30  
o'clock, aged 78 years. Death wasdue to apoplexy. She is survived by  
two brothers, Joshua Brown, of  
Hebron and M. C. Brown, Sr., of  
Union Station. No arrangements  
have been made for the funeral.**Card of Thanks.**  
We desire to thank the friends and  
neighbors who so kindly assisted us  
during the illness and death of our  
beloved husband and father. We  
also wish to thank Rev. Ward for his  
words of comfort, the choir for the  
music and also Mr. Bradley, the un-  
der-taker for his kindness. Mrs.  
Dillie Davis and children 23-11\***Card of Thanks.**  
We wish to thank our friends and  
neighbors for their help and sym-  
pathy in the loss of our little son,  
Walter Carl; to the Rev. Bunyan  
Spencer for his words of hope and  
comfort, for the songs and the  
and the comforting letters received.  
We also wish to thank Dr. Stedem  
and Dr. Barker for their service, for  
the many beautiful floral offerings  
and to Criss Bros for their kindness  
and the efficient manner in conduct-  
ing the funeral. Mr. and Mrs.  
Ernest King. 11\***Card of Thanks.**  
We desire to express our heartfelt  
thanks for the sympathy and kind-  
ness shown by our friends and neigh-  
bors, in the loss of our dear mother,  
Adeline Harriman, Rev. Ward for  
his words of condolence, for the  
beautiful songs rendered and the  
beautiful floral offerings. The  
Children.Western papers please copy,  
3-23-11\***NEW COMPANY  
TAKES CHARGE  
AT SUMMERLAND**A new company, known as the Sum-  
merland Beach Assembly Company, has  
been organized with a view to carrying  
on the work of the Summerland Beach  
Assembly. This new company plans to  
lease the Summerland Beach park prop-  
erty for the coming season. The regu-  
lar assembly will be held as usual and  
the program will be announced in due  
time. The dates will be August 2-13  
and already a number of other organi-  
zations are arranging to hold their  
meetings and outings at this place.**FRENCH CONTENT  
CONDITIONS ARE  
NOT DISCOURAGING**(ASSOCIATED PRESS TELEGRAM)  
Paris, Mar. 23.—Presidents of 75  
French chambers of commerce met here  
today to discuss the general commer-  
cial situation. All were agreed that  
the conditions which exist are as good  
as a state of war will permit. The  
volume of trade, it was asserted, gradu-  
ally is increasing and certain districts  
even are enjoying unusual prosperity.**Malta Expecting  
Wounded Soldiers  
From Dardanelles**(ASSOCIATED PRESS TELEGRAM)  
Valetta, Island of Malta, Mar. 23.—  
Via London.—The governor of Malta  
has appealed to local residents to take  
convalescents from the hospitals into  
their homes, thus making room in the  
hospitals for the wounded who are ex-  
pected from the Dardanelles. The gov-  
ernor indicates, in his communication  
on this subject that the present hospi-  
tal facilities of the island probably  
will prove inadequate to the demands  
he expects soon will be made upon them.**ONE DEAD IN FIRE  
AT COUNTRY INFIRMARY  
FIVE OTHERS MISSING.**(ASSOCIATED PRESS TELEGRAM)  
Muncie, Ind. March 23.—The county  
infirmary burned here early to-  
day. One person was burned to death  
and five other inmates are missing.  
The loss on the building is about  
\$75,000.**Appointed Executor.**  
Ora D. Davis has been appointed  
executor under the will of the estate  
of the late Eli W. Davis of Mary  
Ann township. Bond \$1,500.**Enforced Politeness.**During his term at the Military acade-  
my General Fitzhugh Lee placed a  
dummy in his bed one night and went  
down to Benny Havens. The inspect-  
ing officer reported him, and he was  
hauled up and sentenced to walk ten  
extra hours of Sunday guard duty dur-  
ing the time cadets were allowed out  
of barracks. One Sunday afternoon,  
when all the world was having fun  
and enjoyment, young Lee was walk-  
ing one of those extra hours when he  
saw General Robert E. Lee, then cap-  
tain of engineers and superintendent  
of the academy, pass his post with his  
father-in-law, George Washington Custis.  
As they passed he came to a "pres-  
ent" and heard the general say to Mr.  
Custis, "Do you know that young man  
is walking extra hours for violation of  
the regulations?" "No," quickly re-  
sponded Mr. Custis, "but he is very po-  
lite, is he not?"**Japanese Paper Clothing.**  
"Kamiko," as paper clothing is called  
in Japan, is made of the real Japanese  
paper, manufactured from mulberry  
bark. The paper has little "size" in it,  
and, though soft and warm, a thin lay-  
er of silk wadding is placed between  
two sheets of the paper and the whole  
is quilted. Velvet shirts and drawers  
made in this way are more comforta-  
ble than flannel. The Japanese col-  
diers realized the value of this kind of  
clothing when they had to weather a  
Siberian winter. The only drawback  
to this clothing is that it is not wash-  
able. Paper clothes are extensively  
manufactured in Japan. The garments  
are made of tough, soft fabric, strong  
enough to hold buttons sewed on in  
the ordinary way, and are said to be  
very serviceable.**Personal**Arthur Schauweker, who is traveling  
in the western states, left Des Moines,  
Ia., yesterday for Newark to spend a  
few weeks with his parents, Mr. and  
Mrs. A. B. Schauweker in Hudson  
avenue.Andrew Engstrom has returned to  
Coshocton after spending Sunday at  
his home in this city.Mr. John Conley, the well known B.  
and O. engineer, was in Columbus on  
Monday, attending a funeral.

**Voters, Note These Points,  
In Considering Proposed  
\$30,000 Light Bond Issue**City Can Buy Finished Article Cheaper Than Cost of  
Fuel to Produce It and Yet Be In Position to Equip  
Municipal Plant at Any Time.

Editor of The Advocate:

It is to be borne in mind that if the city buys current  
for one year or two years and longer, that it will con-  
tinue to own and maintain its poles, wires and lamps.It will therefore be in a position at any time, should  
service or price be unsatisfactory, to equip a power  
plant.This city is at present bonded to the extent of \$1-  
100,000 and its limit of indebtedness will soon be reached.Under such conditions isn't it pertinent to inquire  
whether if you can buy the finished article cheaper than  
you can buy the fuel to produce it, why not buy the fin-  
ished article?That is the proposition offered to the city by The Ohio  
Light & Power Company.

The current is offered for \$4192.88 a year.

Eliminating all line loss, leakage, outage and other  
factors which are talked of, but of which little is known,  
the fuel bill alone, according to the only statements  
given, that of Mr. Hitner and of Mr. Christian, exceed  
the price of the finished article.Besides you will know just what your electricity  
costs.

As it is at present you don't know.

The American Bottle Company can tell you how many  
kilowatts their electric plant produced last year, two  
years ago and every day and every month it has been in  
operation.

The city cannot.

The American Bottle Company knows and because  
they know they are buying current and junking ma-  
chinery worth \$30,000, as much as you are asked to put  
into a plant.This is a lesson right at home and it isn't necessary to  
go to Scotland, Germany, Australia or Canada to find it  
out.

CITIZEN.

**Before you start shopping—**come in and let us fit you with a pair  
of these fashionable, new low-heeled Red  
Cross Walking Shoes. Then you can  
complete your shopping with your foot

## GIRLS! CLEAN AND BEAUTIFY HAIR NO DANDRUFF--25 CENT DANDERINE

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and lustrance.

Besides beautifying the hair, one application of Danderine dissolves every

particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

## CHINESE

**BITTERLY OPPOSE PROPOSAL  
THAT JAPAN SHOULD SUP-  
PLANT IMMIGRATION**

**Fears that Friction May be Caused  
by More Troops' Arrival in  
Manchuria.**

(ASSOCIATED PRESS TELEGRAM)  
Peking, March 22.—Conferees regarding the demands made by Japan upon China will be continued at the Japanese legation because of the condition of Minister Ekhioki, who recently was hurt by falling from a horse. At several recent sessions, it is reported, the representatives of Japan have argued that Japanese immigration into Mongolia and Manchuria should not be persistently opposed.

Some fear is expressed here both by foreigners and Chinese that the arrival of additional Japanese troops in Manchuria and Shantung province may cause friction, but the Chinese have been warned by the central government to conduct themselves discreetly.

According to Chinese reports, 600 troops with eight field guns, have arrived at Tsinan, while other detachments have been stationed at points along the Shantung railroad. Six thousand more soldiers are said to have reached Manchuria, 3000 going to Mukden and 3000 to Dalny.

**WILSON DECLINES  
DISCUSSION OF THE  
NOTE SENT TO JAPAN.**

(ASSOCIATED PRESS TELEGRAM)  
Washington, March 23.—President Wilson declared today that the only definite thing that could be said at this time on the Japanese-Chinese negotiations was that the United States had addressed an inquiry to Japan concerning her demands on China.

The president declined to discuss the scope of the American government's communication. When asked however, whether Tokio dispatches were correct in saying the American government had inquired about "minor points," the president made it clear that he did not consider the points of a minor character.

Another dispatch from Tokio stating that the United States had approved of Japan's explanation of the demands was brought to the president's attention and he referred to it as unfounded, pointing out that the United States had neither approved nor disapproved—having, in fact, not yet received Japan's reply.

**PROLONGING LIFE  
BRIGHTS DISEASE**

It is hard for physicians who have had nothing but failure in chronic Bright's Disease to believe that there is such a thing as recovery and many honestly feel that patients reporting recoveries under Fulton's Renal Compound are but temporarily benefited. Let us refer to the case of the daughter of the late W. W. Spaulding, former U. S. Sub-Treasurer of San Francisco.

After her father "had spent ten thousand dollars" in efforts to cure her and the dropsy came and the end looked near she was put on Fulton's Renal Compound. To use the words of the physician, let us say that she was "temporarily benefited." We must now stretch "temporary" to twenty years for it was twenty years ago, and she was living and attending to her household duties at last advices, in January, 1914.

The ability of Fulton's Renal Compound to oppose Renal Degeneration and reduce albumen in many cases of Bright's Disease is not a matter of opinion but a FACT IN PHYSICS, and we will mail formula for albumen test that will show the percentage from week to week. As the albumen declines improvement commonly follows, recoveries having been reported in thousands of cases. Send for formula and literature mailed on request. John J. Fulton Co. F. D. Hall is local agent. Ask for pamphlet.

**BOWLER HANGS UP  
HIGH SCORE OF 697  
IN SINGLES EVENT**

(ASSOCIATED PRESS TELEGRAM)  
Peoria, Ill., March 23.—Only twice in the history of the American Bowling Congress was a contestant in the singles exceeded the 697 mark with which Walter Cook of Philadelphia, is leading today in the present tournament. In 1910, Hake of Detroit, did better with 705 and in 1908 Wenger of Chicago rolled 699. Hoboken, Trenton, Cleveland, Columbus, Louisville, Uniontown and Toledo teams compete today. Five-man teams will aim at the new high score of 2967 made by the Barry Ketteler team of Chicago. In the doubles, E. and R. Allen of Detroit, are ahead with 1297.

**Every Day Etiquette**

"What is the proper vest and tie for a man to wear with full dress suit?" asked Horace.

"He should wear a single-breasted white silk, linen or pique vest and a white silk or pique bow tie," replied the friend.

"Calling on a friend she is a deer, should I leave my hat on?" asked Ned.

"It is necessary to leave a card with you in such circumstances unless you are making your first call. You then put your card on the table in the hall or drawing room," said his brother.

There were 2,000,000 Slaves in the United States before the European war broke out.

## CASCARETS FOR YOUR BOWELS IF HEADACHY, SICK

Get a 10-cent box  
Put aside—just once—the Salts. Pills, Castor Oil or Purgative Waters which merely force a passage-way through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Severe Colds, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.

**SHEET IRON MILLS  
AT YOUNGSTOWN TO  
RESUME ON MONDAY**

(ASSOCIATED PRESS TELEGRAM)  
Youngstown, O., March 23.—Sheet iron manufacturers here whose plants have been idle under a truce with employes, today announced that mills would resume operations next Monday. The truce will end Thursday but more time is given on account of the third referendum vote on the question of accepting a lower wage scale by the sheet and tin plate lodges of the Amalgamated Association of Iron, Sheet and Tin Plate Workers. Sheet workers here feel sure the scale will be adopted by the referendum Saturday.

**Lorlys E. Rogers  
As He Looks Today**

This is the first photograph that has been taken of Lorlys Elton Rogers, the New York lawyer, since the strange story of his marriage came out in connection with the poisoning of two babies by Mrs. Walters. She is about to be tried for their death, and the photograph was taken when he appeared in connection with her arraignment.

Rogers was married many years ago to a southern woman, who later got a divorce from him. He then married the sister of one of the best known professors at Columbia University. Later he established relations with Mrs. Walters, and two children were born to them. Believing he was about to leave her, she became despondent and poisoned the children and herself. The little ones died, but she recovered.

**Of the Same Opinion.**  
Mildred—Don't you think Miss Elderly looks much younger in her new hat?  
Helen—Indeed I do. Why, Mildred, it makes her look but very little older than she says she is—Judge.

**The Pink of Health**  
is every woman's right; but many are troubled with sallow complexions, headaches, backaches, low spirits—until they learn that sure relief may be found in

## "TIZ" FOR SORE, TIRED FEET--AH!

"TIZ" is grand for aching swollen, sweaty, calloused feet or corns.

"Pull, Johnny, Pull!"  
Ah! what relief. No more tired feet, no more burning feet; no more swollen; bad smelling sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ." "TIZ" is the only remedy that draws out all the poisonous exudations which puff up the feet. "TIZ" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns callouses or bunions.

Get a 25 cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "TIZ." Get a whole year's foot comfort for only 25 cents. Think of it.

## COLDS, HEADACHE, NOSE AND HEAD ALL STOPPED UP

Your cold will break and all griping misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharges or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

## APPALLING

CONDITION OF AERONAUTIC BRANCH OF THE NATION'S MILITARY SERVICE

Pointed Out By Head of Aviation Reserve Corps—Not one Aeroplane Fit for Use.

(ASSOCIATED PRESS TELEGRAM) Chicago, March 23.—The aeronautic branch of the nation's military service was declared to be in an "appalling condition," by Albert Bond Lambert, of St. Louis, head of the United States aviation reserve corps, in an address at the first annual dinner of the Chicago branch of the navy league of the United States here last night.

There is not one aeroplane owned by the federal government that is capable of military service, Mr. Lambert said, and the total number of machines does not exceed thirty, no two of which are alike. He asserted that the appropriation of \$1,300,000 recently passed by congress for aeronautics, was insufficient.

"The situation in the U. S." he said, "is appalling. England has 1,400 aeroplanes, Germany 1,400, France 900, Russia 1,000, while the United States has one tenth of the aeronautic strength of Japan, which has 300 machines.

"The inefficiency of the aeronautic branch of our service is not due to the personnel of the army and navy, but to congress."

## OPTIMISTIC VIEW OF VICTORY TAKEN BY RUSSIAN PRESS

(ASSOCIATED PRESS TELEGRAM) Petrograd, March 23.—(Via London.)—The highest importance is attached to the fall of Przemysl by the Novoe Vremya. Liking the surrender of the Galician fortress to the fall of the Metz during the Franco-Prussian war and the capitulation of Port Arthur in the Russo-Japanese war, the paper states that the last obstacle has now been removed to the Russian advance in Galicia and to the heart of the Carpathians.

"This is decided the fate of the whole Hapsburg empire and consequently that of her ally, Germany," the Novoe Vremya continues. "There is nothing now to prevent the advance of Russian armies direct to Uzhok and Lupkow passes."

The Russian authorities have received information to the effect that the defenses of Przemysl are in good condition notwithstanding the long siege, and are capable of being put into working order immediately. Six hundred guns of the newest type were found in the fortress.

**JACKSONTOWN GRANGE.**  
The members of the Jacksontown Grange have been giving a series of excellent programs this winter, given by the married men, married ladies, young men, and now as a grand finale, comes the beautiful Indian operetta, "The Feast of the Red Corn," given by the young ladies of the Grange on Friday night at the hall.

There will be no Grange on this night, the program beginning at 8 o'clock, and everyone is most cordially invited. No admittance will be charged.

People don't have to be vegetarians to be known as small potatoes.

## HOW SHE ENDED TEN YEARS OF SKIN-TORTURE

Oct. 28, 1911.—"I had eczema on my face for ten years. Little red pimples formed in a small spot on my chin and then spread all over my face. They itched and burned me awfully. It was certainly embarrassing to me, and I could not go amongst people. I tried almost every remedy and treatment that could be used for this trouble, but nothing did me any good. I used Resinol Ointment and Resinol Soap, and was relieved in a day or two. In one month I was cured. This was six months ago and the trouble has never returned."—(Signed) Mrs. C. C. Roberts, Weatherford, Okla.

The Resinol treatment speedily heals eczema, rashes, ringworm, and other eruptions, and clears away disfiguring pimples and blackheads, even when other treatments prove worse than useless. Doctors have prescribed Resinol Ointment and Resinol Soap for eighteen years, and all druggists sell them.

## TRIBUTE

PAID BY GERMAN PRESS TO THE GALLANTRY OF PRZEMYSLS GARRISON

But Shows No Disposition to Minimize the Gravity of Austrians' Final Defeat.

(ASSOCIATED PRESS TELEGRAM)

Berlin, Via London, March 23.—The press of the German capital unites in paying tribute to the defenders of Przemysl, who, it is declared, only hunger could subdue. At the same time, there is no disposition to make light of the defeat. The Lokal Anzeiger says:

"We have no intention of minimizing the loss our brave allies have suffered. Przemysl was strong and a great fortress. It showed its strength in its proud defense. We mourn with our allies its loss and the loss of its commander and garrison, who have won laurels whose glory captivity cannot destroy."

The Vossische Zeitung says the fort's fall releases the beleaguering army but while it is not known where it will be employed the Austrians undoubtedly are informed and will take the necessary steps.

"While we thoroughly agree with the view of the Austrian staff, that the fall of Przemysl can have no influence on the general situation," says the Kreuz Zeitung, "we nevertheless are honest enough to admit it is a painful blow dealt our cause on the right wing of our mutual thousand kilometre front."

## Readers' View Point

From Director Christian.

Editor of The Advocate:—I was somewhat amused, when I read last evening's papers, and found how CITIZEN used 22 inches of display matter, to speak about myself. It looks as though he was trying to catch his breath, over the way his great argument was exploded.

For his information, I desire to state that I was perfectly able to stand my ground in the great "Heck Investigation" on the water works, and believe that I am just as well posted on the Cities position on the Electric Light proposition. I know what it has cost, and can determine what is before it in the future. My statements on Saturday are correct, and I will stand by them against all adversaries. I do not expect Mr. Citizen to come out and admit the facts as presented, for they are against him, and the best possible way to evade the facts, is to make sport of my ability to "finger."

It is not hard to find out these facts if a person is honestly seeking the truth of the matter: As he is using so much space every night, and which is possibly paid for, that he is in the interests of parties desiring the contract.

It might be well to suggest that he use the name of his ancestry, rather than hide, who he really is, and where he thrives.

In order that he may not go into spasms over the "bunk figgers," I will make this suggestion—I will meet him in the council chamber on next Friday evening, and he explain to the satisfaction of a committee, what he means, when he says "Which is best—To purchase at a cost of \$6,985.42 or \$4,192.85 or to produce at a cost of \$12,488.55, etc., and I to show how it costs \$6670.19 over and above the contract, if made. And I would not mind leaving the decision as to the accuracy to such citizens as Carl Norpell, P. C. Evans, P. S. Neishor, Chas. H. Spencer and W. H. Smith of P. Smith Son's Co., W. C. CHRISTIAN.

Too Much Politics.

Editor of The Advocate:—We are told that municipal ownership is a good thing in Scotland, Germany, Canada and Australia. It reminds one sometimes of the milk sickness, which is always prevalent in another country but not at home.

But if municipal ownership has proved a good thing in those far off localities, why is that so?

Isn't it because of political conditions? Why not instance municipal ownership at home where jobs are parcelled out, not because of the efficiency or capability, but because of party service? No matter how good a proposition might be, if it is managed improperly it will not prove successful and that has been the trouble with city controlled properties in this country. Politics and not business have run them.

SUBSCRIBER.

## ITALY'S PREMIER DENIES REPORTS OF FOOD SHORTAGE

(ASSOCIATED PRESS TELEGRAM) Rome via Paris, March 23.—Before the adjournment yesterday of the Chamber of Deputies until May 12, Premier Salandra declared the government did not intend to rule without a parliament, but that a vacation was necessary that the cabinet might center its attention upon pressing internal and international questions.

Contrary to the assertions of Socialist members, the premier said, the country is not suffering from a shortage of food and much exaggerated statements created a wrong impression abroad. The country suffers inconveniences from the war, he admitted, but the government is doing everything possible to provide work for the unemployed.

Adding Insult.

"Why did Rinks fail in his photo business?" "Asked his customer the first thing whether they wanted photographs or likenesses."—Philadelphia Ledger.

In proportion to its size Belgium has more railroads than any other country in the world.

## SNOWSLIDE RESULTS IN FIFTY DEAD

ACCORDING TO REPORTS OF SOME SURVIVORS OF BRITISH COLUMBIA DISASTER

With Report Like Dynamite Explosion, Mass of Debris Swept Down Mountain Side.

(ASSOCIATED PRESS TELEGRAM) Vancouver, B. C., March 23.—Until the arrival of another steamer, late today from Howe Sound, no further information was expected concerning the extent of the loss of life in the snow and landslide that swept away early yesterday part of the plant of the Britannia mines, limited. A steamer which arrived from Britannia Beach last night with several of the injured, brought word that the death list probably would reach the first estimates of fifty. Eighteen bodies had been recovered and twenty are known to have been injured.

The slide occurred shortly after midnight.

There was a report like a dynamite explosion; in fact survivors declared they first thought the mine's magazine had blown up. A mass of rock, snow and huge trees swept down from near the summit of the mountains.

It carried from a ledge, a bunkhouse, cook house and one or two of the houses occupied by the families of the employees.

The entire mass of debris then shot downwards, stopping half a mile farther, near the Britannia creek, where some of the mine workings are situated.

When the rescuers got to work, they found some bodies free of the rocks and snow, but so badly battered as to be almost unrecognizable. About a dozen men coming off the night shift from the mine narrowly escaped. One man was buried in the snow for several hours, only his hands appearing above the surface. He was rescued unhurt, although nearly frozen.

## COLD WEATHER DAMAGES CROPS IN THE SOUTH

(ASSOCIATED PRESS TELEGRAM) New Orleans, March 23.—Cold weather in Northern Louisiana and Mississippi for several days has seriously damaged fruits and vegetables and caused suffering among farm animals, according to reports received here today. The peach and plum crops of Northwest Louisiana were said to have been destroyed, while in Mississippi they were heavily damaged. Losses would amount to thousands of dollars, it was said.

Hoax—"How did he make his fortune?" "Joan—"Manufacturing a soothing syrup." Hoax—"Hush money, eh?"

frigerator. Gleichauf's. 3-23-11

Birth Announcement.  
Announcement is made by Mr. and  
Mrs. Frank Stare of the birth of a  
daughter at their home, 482 Mt.  
Vernon Road on March 13.

Lecture Course Tonight.  
Mr. C. D. Parley of Columbus, will  
lecture in Elizabeth church this  
evening at 7:30 o'clock on the  
"Power of an Ideal." This is the  
sixth number of the lecture course.

You Can Enjoy Life  
Eat what you want and not be troubled  
with indigestion if you will take a  
**Renall Dyspepsia**  
**Tablet**  
before and after each meal. Sold only  
in 25c a box.  
Hall's Drug Store.

## Notice to Farmers.

You can buy bran at the Granville  
Flour Mill for \$1.35 per cwt. The  
H. D. Ashbrook Co. 3-10-11

C. S. Osburn & Co. for Onion Sets,  
Lawn Seed, Garden Seeds. 1-10-mo

Kent Brothers, Florists and Seeds-  
men. A full line of Garden and  
Flower Seeds. Order early. 11-11mo

Here is something that ought to  
interest you. The Miller building on  
East Side of Square, now occupied by  
A. Schiff, appraised at \$30,000, is  
one of the best investments in the  
city. The three houses on corner of  
Sixth and Jefferson streets, are also  
a fine investment. Call or phone W.  
D. Fulton, Admr. 3-22-11

## W. C. Kuster Will Be Host.

At 5:30 o'clock this evening Wil-  
liam C. Kuster, proprietor of the  
Sergeant restaurant in the Arcade  
Annex will give a banquet to the  
members of the Licking County  
Automobile Dealers' Association, Mr.  
Kuster being the host.

## Meets With Accident.

Ray Blackstone, clerk in the office  
of superintendent at the B. & O. rail-  
road met with an accident on Tues-  
day morning while riding his motor-  
cycle. Near Granville he struck a  
heavy muddy stretch of the road and  
the machine stuck, throwing the  
rider head first into the mud. Aside  
from a few bruises and ruined cloth-  
ing no damage was done.

## To Take Bride.

Frances Davis, a popular clerk at  
the Evans drug store, leaves this  
evening for Terre Haute, Ind., where  
on the 25th inst. he will be married  
to one of the belles of the Indiana  
city. His many friends will extend  
congratulations and best wishes.

## Theatrical Man Here.

Edward D. Hutchinson, of Colum-  
bus, theatrical producer and costu-  
mer, was in the city Tuesday after-  
noon on his way home from Youngstown  
where he is staging a minstrel in  
that city. Mr. Hutchinson has a  
number of bookings which will run  
him up into the summer.

## Fine Candy Display.

The clerks of the Erman drug  
store in the Arcade have arranged a  
fine candy display in the show win-  
dows facing the auto show. There  
are chocolates and sweets of every  
description and auto show visitors  
are carting them away in one, two  
and three pound boxes.

## Remodeling Building.

Contractor Jas. Cooper is now at  
work remodeling the Conrad build-  
ing just north of Erman's drug store  
for the Ohio Light and Power Com-  
pany which will use the first and sec-  
ond floors for offices and salesroom.  
The floor is being lowered and a new  
front will be put in. This building  
has been used continuously for a  
grocery store since it was built over  
40 years ago. The Conrad grocery  
was recently moved to the new Ma-  
sonic temple.

## JUDGE

(Continued from Page 1.)  
assert they paid fines not shown on  
court books.  
Judge Baggett is a Democrat. The  
Steubenville officials are Republic-  
ans.

State Examiner Bliss says in his  
report on alleged irregularities of  
the city administration at Steuben-  
ville:

"Houses of ill-fame are permitted  
to run, wide open, many of them sell-  
ing intoxicating liquors on the prem-  
ises and the mayor and safety di-  
rector are fully aware of the condi-  
tion."  
"Gambling is conducted in many  
forms of which the officials are well  
aware."  
"Speakeasies and bootleggers are  
doing a thriving business and when  
an occasional raid is made the officers  
divide the beer and whisky they  
seized and appropriate it to their  
personal use."

"The city administration neglected  
to furnish proper protection to life  
and property during the 1913 strike  
at one of the plants located within  
the city limits, and upon request of  
the representatives of the plant for  
the protection of its property the  
mayor declined."

Commenting on a former report  
on the city administration of Steu-  
benville, in which large shortages  
and findings were found, Examiner  
Bliss cites a number of alleged ir-  
regular and illegal practices. He  
says:

"Hugh W. Patterson, while hold-  
ing the office of city auditor and  
clerk of council, did 23 alleged jobs  
of work for the city as agent for his  
father," the report says.

ANY DISCREPANCIES  
DUE TO KEEPING OF  
BOOKS, SAYS BAGGETT.

(ASSOCIATED PRESS TELEGRAM)  
Dayton, O., March 23.—In a state-  
ment given out today, Judge Baggett  
said that if any discrepancies exist in  
his office, they are the result of  
faulty bookkeeping. He points out  
that he assumed office in 1909 and  
that from then until 1912 no system-  
atic plan had been laid down by the  
state accounting bureau for the re-  
cording and accounting of funds of  
the juvenile court. He says that he  
understands these alleged discrepan-  
cies occurred between November,  
1911 and October, 1912. Judge Bag-  
gett says he will repay to the state  
everything which is shown to be due,  
as other officials have done.

Judge Baggett said he has collect-  
ed and disbursed about a quarter of  
a million dollars in his position as  
judge and that his books have been  
frequently examined; that there is  
no claim by the examiners that the  
books have in any way been altered  
or the records in any way changed.

## WILSON WILL NOT MEDDLE.

(ASSOCIATED PRESS TELEGRAM)  
Washington, 23.—President Wil-  
son has no intention of interfering  
in factional differences between  
Democrats in New York and Pennsy-  
lvania. He told callers today that he  
thought the people of each state  
were able to look after their own  
affairs.

Want a house? Read the Wants.

Answer to Mr. Carl Norpell's  
Discussion of Light Question

## Editor of the Advocate:

Because of unwarranted state-  
ments made by Mr. Norpell when de-  
bating the light question, I desire to  
make some corrections of what may  
be misapprehension by the readers  
of his discussion.

All those who favor the building  
of a municipal light plant in con-  
nection with our water works plant  
are not prejudiced against corpora-  
tions as stated by Mr. Norpell. The  
writer is not prejudiced against cor-  
porations in any way, quite the op-  
posite, but does make some distinc-  
tion between those that operate  
from the proper business ethics  
standpoint and those that do not.

We have a number of corpora-  
tions in our city that belong to a  
class that are indispensable to the  
industrial development and finan-  
cial welfare of our people.  
namely, The Wehrle Company, A. H.  
Helsey & Company, Jewett Car  
Works, Advance Glass Company, E.  
H. Everett Company and many  
others that bring prosperity to our  
community by bringing into our city  
more wealth than they take out of it.  
Therefore the balance of trade from  
such institutions is largely in our  
favor and we only prosper in pro-  
portion to our balance of trade. I  
certainly hope that we may be for-  
tunate enough to secure many more  
such institutions in the near future.

The heads of the corporations re-  
ferred to, live in our city and as  
citizens are therefore interested in  
all matters of a public welfare na-  
ture. They are public spirited and  
evidence of that fact is their large  
contributions to our city hospital,  
public library, churches, etc., con-  
sequently, are not only an asset to  
our community from an industrial  
development standpoint, but in pro-  
moting public welfare propositions.

But experience, however, in deal-  
ing with some corporations that have  
operated in our city has been such  
that we are forced to make some dis-  
tinction between corporations when  
discussing their comparative value to  
our community. We have had ex-  
perience with corporations that are  
monopolies, whose only aim was to  
secure the maximum toll from our  
citizens for the service rendered and  
resort to most any means to sup-  
press competition. These corpora-  
tions were controlled by non-resi-  
dents who were not interested in  
matters of public welfare nature,  
either moral or social and did not  
contribute to any of our public in-  
stitutions from a standpoint of pub-  
lic interest and our balance of  
trade with these corporations was

very much against us by reason of  
their being operated by non-resi-  
dents.

Our experience with the water  
works corporation was that the  
citizens' rights ended in dealing with  
them where the bond holders' inter-  
ests began, therefore, could not be  
brought to justice under their con-  
tract because of the subterfuge of  
the bond holders of the company  
asserting their rights.

Again we had an experience with  
the Union Gas Corporation which  
corporation divided up in a manner  
that its subsidiary companies could  
not be forced to give proper service  
under their contract, or be brought  
to justice by the courts because the  
producing company was incorporated  
separate and apart from the dis-  
tributing company and by its  
machinations destroyed competition,  
consequently monopolized a resource  
in a manner that enabled them to  
dominate the situation, effecting  
prices and public service. They  
sought to freeze our citizens into  
submission to their will, but I am  
pleased to know that we had three  
citizens who were interested in the  
protection of our helpless citizens  
that had an ample supply of gas,  
thus disproving the old alibi of lack  
of facilities to give adequate service.

We also had an experience with  
the Bell Telephone Company, an-  
other monopoly that sought to de-  
stroy the progressive Citizens' Com-  
pany and thereby monopolize another  
resource. The experience with this  
company is fresh in our memory  
of their offering to furnish telephones  
free in order to destroy the Citizens'  
Company. It probably never was  
their intention to extend their lines  
beyond the central business district  
because they were only particularly in-  
terested in the control of the toll  
business, but it was exceedingly  
fortunate that we had patriotic  
citizens who supported the Citizens'  
Company. We knew full well that  
in case they accomplished their aim  
they would charge \$4.00 per month  
rental, the former rate. Our citizens,  
however, believed that their best in-  
terests would be conserved by as-  
sisting the local company, and in view  
of that solicited our city council to  
grant their request for a franchise  
that would enable them to extend  
their business by installing a modern  
equipment. The result was, I am  
pleased to state, that the local com-  
pany extended their lines from town-  
ship to township and county to coun-  
ty, thereby greatly increasing our  
commercial trade. I presume the  
stockholders of this company believe

It's Loaded

You Say!

Well, I'll take your word for it.  
Don't fool with it around here!

That's what any sane individual would say to a man with a  
loaded gun. Yet there are thousands tampering with a beverage  
loaded with a poisonous drug which gets in its work with sure  
precision.

That beverage is Coffee—  
Caffeine is its drug

Headache, biliousness, nervousness, sleeplessness—these  
are some of the signs that so often accompany coffee's opera-  
tions.

Knowing that coffee is loaded, why not quit it and use

INSTANT POSTUM

—a pure food-drink, made from hard northern wheat with a bit  
of wholesome molasses. Caffeine-free—drug-free—delicious—  
nourishing—economical.

Postum comes in two forms: Postum Cereal—has  
to be well boiled; 15c and 25c packages. Instant Pos-  
tum—made in the cup with hot water; 7c and 5c  
tins. Both forms are equally delightful; cost per cup  
is about the same.

No dangers—no fears with POSTUM. Old and young drink  
it with pleasure and benefit.

"There's a Reason"

Sold by Grocers everywhere.

## Hats For a Two Spot

A stylish, becoming, serviceable hat for

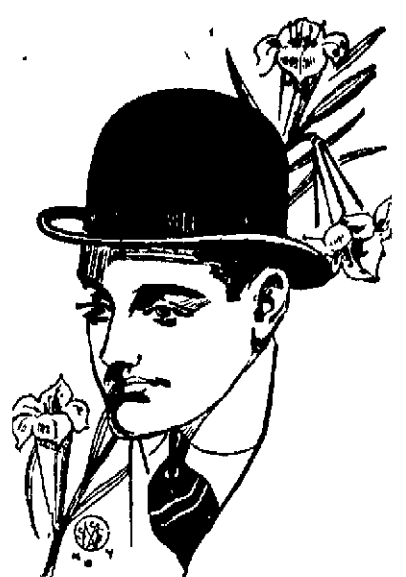

\$2.00

That's a specialty here.

Other stores would ask more. We ought to.  
Come in and see for yourself why men who  
buy their hats here are so well pleased.

New spring shapes and shades—a hat for ev-  
ery countenance.

Other fine hats up to \$5. Best values always.  
If it's a Hart, Schafner & Marx, your Easter  
suit is here.

RUTLEDGE BROTHERS

in home patronage to the extent that  
they will support our municipal light  
proposition.

Mr. Norpell, you did not make any  
distinction in your reference to cor-  
porations. If they are all righteous  
and seeking to serve the public's best  
interest, I would like to inquire why  
the state of Ohio created a public util-  
ities commission whose chief function  
is to regulate the service of—well, I  
suppose the righteous corporations. I  
am inclined to think that you know  
better, but you stated you were prej-  
udiced against municipal plants of any  
sort, I am therefore constrained to be-  
lieve that you are not competent to  
discuss the light question unbiased,  
therefore your argument cannot be  
considered from the standpoint of  
sound doctrine.

The Ohio Light and Power company  
is pursuing the same methods that all  
monopolies have used in destroying  
competition by offering a subterfuge.  
When we fully consider the matter, we  
observe that they are offering a pro-  
position in disguise in order to de-  
feat our municipal plant project. It is  
apparent that they thought they had  
enough support in our city council to  
secure their proposition of 1.75 rate,  
consequently submitted that price,  
but opposition sprang up and a city  
engineer was about to be employed  
and they realizing that the city could  
manufacture current for less than the  
price submitted reduced their price to  
a rate of 1.10. Now, what do the fig-  
ures show? The difference between  
1.75 and 1.10 is six and one half mills  
(.0065). Taking as a basis for calcula-  
tion the maximum current that the  
Ohio Light and Power state was con-  
sumed for the last year of \$75,000 K.  
W. H. the following result is pro-  
duced: \$75,000 K. W. H. times .0065  
equals difference in a year's consump-  
tion \$487.50. The difference for price  
for ten years would be a saving of  
\$4,875.00. It is certainly clear that  
we have saved \$4,875.00, which is a  
sufficient amount to construct our  
municipal plant.

It is apparent that the Ohio Light  
and Power company would never have  
reduced their first offer in case we  
had not had a municipal plant—prob-  
ably would have asked more than the  
first proposition. If our municipal  
plant is worth to us what the figures  
actually show would it not be worth  
a great deal more to the consumer of  
current for private use in case our  
municipal plant was constructed with  
a capacity of 200,000 K. W. H. greater  
than is needed for street lighting and  
sell the surplus current for private  
consumption? Bear in mind, Mr.  
Voter, that this is the real issue the  
Ohio Light and Power expects to  
dominate the situation as to the sale  
of current for private consumption.

They know full well that the munici-  
pal plant will demonstrate that it can  
produce current at less than they  
claim for it. If this were not true  
why would they be especially con-  
cerned to destroy our municipal plant?  
If municipal plants are such failures  
as they state they are, they need not  
waste their energy in trying to de-  
stroy them because they would cease  
to exist in case satisfactory results  
were not obtained. They are, of  
course, fully aware as to the great suc-  
cess of municipal light plants in gen-  
eral.

We do not need to speculate on this  
question. Facts are easily obtained.  
Lansing, Michigan, sells current to the  
private consumer on a sliding scale  
from 5c to 11-2 per K. W. H., accord-  
ing to the amount consumed. Con-  
sumption over 1500 K. W. H., 11-2c.  
After charging off 5 per cent for de-  
preciation and taking into account ev-  
ery feature of expense of operation the  
plant earns 1 per cent over cost in  
selling current at the average price for  
its total production of \$195.

Chicago, Messrs. highest price to  
the consumer is 6c and the lowest 2c  
on a sliding scale. And after charging  
off 5 per cent for depreciation earned  
a large surplus. And so on the exam-  
ples go too numerous to mention—not  
by the tens but by the hundreds. Com-  
pare, if you please, the average price  
charged for current in municipalities  
that own their own light and power  
plants throughout the United States  
and you will discover that the rates  
are about one-half where there are  
municipally-owned plants in compar-  
ison to those controlled by the trust.

Mr. Norpell, for your benefit, I will  
state that there are 42 municipal  
plants in the leading cities of this  
country that are free from debt, in-  
cluding Chicago, Lyonsport, Ind.,  
Jacksonville, Florida, from Lake to  
Gulf, and from coast to coast. I am  
very much surprised at Mr. Norpell's  
arguments because of his being of  
German descent and the phenomenal  
success Germany has experienced in  
municipally owned plants and her suc-  
cessful conserving of her resources,  
and her scientific method of develop-  
ing her resources to a point of max-  
imum efficiency and to her best in-  
terests of her citizens with a satisfied  
public. Better get in touch, Mr. Nor-  
pell, with your Fatherland.

The problems that are now con-  
fronting us have been solved in Ger-

many. They are a matter of history  
with them. We will accept the re-  
sponsibility and solve our problems  
successfully in this country because  
we have practical examples in Ger-  
many, Canada, Glasgow, Scotland,  
also in this country.

Relative to the unrest in this  
country and the radical legislation I  
desire to state that I think it's an  
unfortunate condition and should be  
corrected and will be. It is an in-  
evitable result of our system of indus-  
trial development. Organization  
seems to be the order of the day.  
Monopolies are formed as a result of  
a great combination of capital. We  
have merchants' organizations, doc-  
tors and lawyers' fraternities, labor  
organizations, all aiming to obtain  
the maximum result for the energy  
expended. A real campaign of edu-  
cation is needed, a broad compre-  
hensive, intelligent, persistent, ag-  
gressive, campaign of education in order  
that we may establish the right re-  
lation between the different ele-  
ments, but it must be on the  
basis that no one element can ruth-  
lessly injure another because we  
have learned that such a method will  
not establish confidence.

Relative to railroad corporations I  
wish to state that I don't believe that  
any fair-minded person would object  
to the railroads being allowed suffi-  
cient returns on their legitimate in-  
vestments. We are fully aware that  
much depends upon the prosperity  
and development of our railroads.  
You cannot distort the issue, Mr.  
Norpell, by your reference to the  
railroads.

We are in a new era of municipal  
development and have many prob-  
lems to solve, but as before stated,  
we will solve them. I am not so  
much afraid of the public as you are.  
I think an educated public is safer  
than a city council elected by an un-  
educated public or a public that can-  
not secure facts when monopolies  
control our resources and the best  
way to educate them so that they  
may vote intelligently upon every is-  
sue that comes before them is suffi-  
cient publicity of the facts. It is  
clear that they cannot be secured ex-  
cept by the municipal ownership of  
our light and water plant. I am op-  
posed to municipal ownership of  
light and water plants because of the  
abuse of privileges by private cor-  
porations controlling them.

Relative to efficiency, it has been  
my observation that efficiency has  
not in general reduced the cost of  
products to the consumer. For ex-  
ample the Harvester Trust, the To-  
bacco Trust, the Coffee Trust, light  
plants, water works and others too  
numerous to mention, but efficiency  
has counted in the interest of the  
consumer in the management and op-  
eration of municipal plants. For ex-  
ample, the greatest industrial cen-  
ters of this country such as Detroit,  
Chicago, Lansing, Mich., Cleveland,  
and others have solved the problem  
of light and power. New York City  
has solved the water and subway  
problem and so on with many other  
of our leading cities.

The practical control and opera-  
tion of utilities is a public service  
proposition and must be considered  
from the kind of service and from  
an economic standpoint. Lines can-  
not be drawn between the economic  
social and moral life of the people.  
They rise and fall together. Econ-  
omic justice must be established in  
order to have a satisfied public that  
Mr. Norpell so much desires.

It is a public duty to defeat the  
purposes of a monopoly that is work-  
ing in disguise such as the Ohio Light  
& Power company is doing.

Ask yourself the question, Mr.  
Norpell as to why corporations want  
to destroy competition. Your an-  
swer I am sure will be a vote for  
the bond issue to build our munici-  
pal plant thereby assist us in keep-  
ing out of the clutches of a mono-  
poly conducted by high financiers.

PHIL GERLACH.

Want a house? Read the Wants.

Washing Won't Rid  
Head Of Dandruff

The only sure way to get rid of dan-  
druff is to dissolve it, then you destroy it  
entirely. To do this, get about four  
ounces of ordinary liquid arvon; apply it  
at night when retiring; use enough to  
moisten the scalp and rub it in gently  
with the finger tips.  
Do this tonight, and by morning most  
if not all of your dandruff will be gone,  
and three or four more applications will  
completely dissolve and entirely destroy  
every single sign and trace of it, no mat-  
ter how much dandruff you may have.  
You will find, too, that all itching and  
digging of the scalp will stop at once,  
and your hair will be fluffy, lustrous,  
glossy, silky and soft, and look and feel  
a hundred times better.  
You can get liquid arvon at any drug  
store. It is inexpensive and never fails  
to do the work.

IF BACK HURTS  
BEGIN ON SALTS

Flush the Kidneys at once when  
Backache or Bladder bothers—  
Meat forms uric acid.

No man or woman who eats meat  
regularly can make a mistake by  
flushing the kidneys occasionally,  
says a well-known authority. Meat  
forms uric acid which clogs the kid-  
ney pores so they sluggishly filter  
or strain only part of the waste and  
poisons from the blood, then you get  
sick. Nearly all rheumatism, head-  
aches, liver trouble, nervousness,  
constipation, dizziness, sleeplessness,  
bladder disorders come from slug-  
gish kidneys.  
The moment you feel a dull ache  
in the kidneys or your back hurts,  
or if the urine is cloudy, offensive,  
full of sediment, irregular of pas-  
sage or attended by a sensation of  
sticking, get about four ounces of Jad  
Salts from any reliable pharmacy  
and take a teaspoonful in a glass of  
water before breakfast for a few  
days and your kidneys will then act  
fine. This famous salt is made  
from the acid of grapes and lemon  
juice, combined with lithia and has  
been used for generations to flush  
clogged kidneys and stimulate them  
to activity, also to neutralize the  
acids in urine so it no longer causes  
irritation, thus ending bladder dis-  
orders.

Jad Salts is inexpensive and can-  
not injure, makes a delightful ef-  
fervescent lithia-water drink which  
all regular meat eaters should take  
now and then to keep the kidneys  
clean and the blood pure, thereby  
avoiding serious kidney complica-  
tions.

For a first-class  
finish on a second-  
hand job you should use

## The New Suits

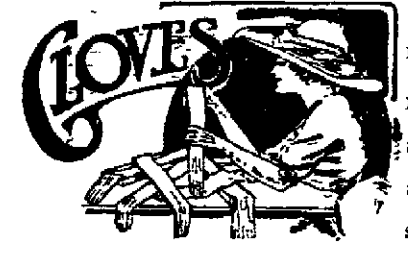

A wonderful display and many individual styles awaits your choice. All the new models are strictly tailored and are shown in beautiful materials, such as coverts, gabardines, serges and crepe weaves in all the new shades, sand, putty, Belgian blue, navy, black and white checks.

You'll want to see  
The New Spring Coats,  
The New Silk Dresses,  
The New Skirts.

## Beautiful Blouses

In all the new styles in laces, Georgette crepes, Pussy Willow taffetas, crepe-de-chines, wash silks, embroidered crepes, fancy voiles and linens await your inspection.

## Buy Your Easter Gloves

while the lines are complete. The last few days before Easter will find many sizes and colors missing. Silk and kid gloves are here in all sizes and in shades to match the new spring fabrics.

**W. H. Mazzy Company**

## Don't Sell Your Heritage For a Mess of Pottage

Did it ever occur to you, Mr. Taxpayer, why the Ohio Light & Power Company is so anxious to sell the City its electric current?

Why was it, years ago, when the Newark Telephone Company was first organized, that the Bell Telephone Company was first shareholders in the Newark Telephone Company, which had been charging \$4.00 per month, offered their phones FREE to all who would have them?

YOU KNOW that it was for the purpose of putting the Newark Company out of business—to kill COMPETITION.

The citizens of Newark met that situation nobly. They had the good business sense to look farther than the end of their noses. They refused to mortgage their future for a stick of candy today. They paid for the Newark Co. phone when they were offered the Bell for nothing. And what is the result? You are getting your telephone today, and you have been ever since the Newark Company started competing with the Bell, for less than half of what you paid the Bell before the days of COMPETITION.

What is the difference in principle between the telephone matter and the light proposition?

Why is it that the electric light company offers us current for 1-3-4 and then, when the heat is not seized, for 1 and 1-10, and then, when there appears to be doubt about our coming across, a flat rate by which it is claimed the price is still further cut?

The answer is so plain that no man can fail to see it.

YOU KNOW the object is to destroy competition by getting rid of the City's Plant.

The City of Newark is not yet in the business of supplying current to private consumers. BUT MARK

THIS—as long as we have a current generating plant, we have a club over the head of the private company, that is more effective than anything else in inducing that private company to give our citizens good service and fair prices.

And who knows that fact better than the Light Company?

Outside the question of private lighting, take a look into the street lighting end of it.

Suppose we make a contract with the Light Company for a period of 5 or 10 years. At the end of the period we have no current producing plant of our own. There is no private plant in this section of the State to compete with The Ohio Light & Power Company. What are we going to pay it for our current, the next 5 or 10 years?

WE ALL KNOW that we will pay The Ohio Light & Power Company whatever it sees fit to ask, or be plunged into expensive litigation to determine the question of price.

Citizens and taxpayers of Newark, —keep TOMORROW in mind when you bargain TODAY.

CITIZENS COMMITTEE.

Recipes of Our Pioneer Mothers. For the home treatment of disease were wonderfully dependable. Trac, they knew nothing of drugs, but owed their success to the roots, herbs and barks of the field. It is interesting to note that Lydia E. Pinkham's Vegetable Compound, the most successful remedy for female ills we have, was originally prepared for home use from one of these recipes. Its fame has now spread from shore to shore, and thousands of American women, now well and strong, claim they owe their health and happiness to Lydia E. Pinkham's Vegetable Compound.

Chief Pleasure. "Do you think aeroplanes will ever be as popular as automobiles?" "Never. You can't fly high enough to put on airs for the benefit of your pedestrian friends."—Kansas City Journal.

## Foreign Demonstrators Are Commenting Favorably Upon Newark's Big Auto Exhibition

Newark's second annual automobile show held under the auspices of the local dealers, opened Monday night in the Arcade and Arcade Annex with 23 different makes of automobiles on exhibition. In addition to the automobiles, motorcycles, tires and other accessories are on display. Seventeen dealers are represented in the show and every one has endeavored to make his exhibit attractive.

The feature of the show is the chassis of the Cadillac 8-cylinder machine, an innovation in automobile construction. The chassis has been placed in position in the space in front of the Alhambra theatre, is connected with a motor, which keeps the engine slowly moving, showing the mechanical operation of the various parts of the machinery. Parts of the cylinders have been cut away plate glass has taken the place of steel plates covering other parts, so that every gear and part is in plain sight. The engine in this car is of the same type which will be installed in the new auto-patrol for the police department which, it is said has been contracted for.

This Cadillac car is a part of the exhibit of Spillman Brothers, who are handling the Buick and Cadillac. A stock chassis of the Buick is also on exhibition.

The Studebaker and Briscoe are shown by S. E. Forsythe, the feature of this display being the three passenger Studebaker roadster.

The Maxwell and Reo cars are exhibited by C. U. Stevens & Son, three cars being on exhibition.

Fred W. Simpson with the Overland has a number of fine cars in his exhibit.

The exhibit of the Hupmobile and the Westcott cars shown by C. A. Pence, of Hebron, is attracting much attention. There are a number of distinctive features in these cars which Mr. Pence does not overlook while talking to a prospect.

A. P. Hess Auto Co. has a large

display of Ford, Dodge and Hudson cars, the exhibit of Ford cars including a number of light trucks and delivery cars.

Voeman & Nye, with the Kissel Kar and the Alter Car, are in the Arcade Annex.

The Paige and the Metz, Wolf and Yans agents, are also showing in the Annex.

The Allen, shown by A. D. Fairall, the Monroe, the Apperson, shown by the Anderson Auto Sales Co., the Empire, the agency for which has just been transferred to Huffman & Kirk, and the Republic 3-4 ton truck are all exhibited in the Annex.

George T. Stream, local agent for the Indian Motorcycle, has three of the models on exhibition, one with a side car attachment.

Howard Beeny with the Thor motorcycle and bicycles has an exhibit in the west end of the Arcade.

D. L. Jones Hardware Company is showing tires, accessories, etc., their space being in front of the Western Union.

The Grant, shown by Murray Connolly and the Sphinx shown by Wright D. Wyeth and the Case, shown by Clem Coffman are all found in the Arcade west of the center.

The auto exhibits are not the only attractions in the show. The offer of the automobile dealers of a price of \$10 for the best trimmed window has resulted in a number of clever window displays.

Among the more attractive are those of Mrs. McEwen's Beauty Parlor, the Coulter-McKay Co., the Newark Electrical Company, Charles Duerr, forest, and Stewart Brothers & Alward.

The show has caused a number of demonstrators who were ordered to Newark, to alter their opinion of the city and its automobile dealers. Some of them who criticised their superiors for ordering them to the Newark show, took off their hats to the local association when they saw the size of the local exhibit and the crowds drawn by the show. There are a number of factory representatives here.

## OUCH! LUMBAGO?

Try Musterole. See How Quickly It Relieves

You just rub MUSTEROLE in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. MUSTEROLE is a clean, white ointment, made with oil of mustard. Use it instead of mustard plaster. Will not blister.

Doctors and nurses use MUSTEROLE and recommend it to their patients.

They will gladly tell you what relief it gives from Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

## Civilians Will Be Exchanged By The Warring Nations

ASSOCIATED PRESS TELEGRAM  
Nish, Serbia, Mar. 23.—Via London.—Through the intermediary of the American mission to Serbia, Charles J. Vopelka, Serbia and Austria-Hungary have reached an agreement for the exchange of interned civilians. These are to include men under 18 years of age and over 50, all women and soldiers incapable of further military service because of sickness or wounds.

## Two Ohio Cities Went "Dry" Monday

ASSOCIATED PRESS TELEGRAM  
Columbus, Mar. 23.—"Dry" forces carried two out of three Ohio towns in which the local elections were held yesterday. Convoy, Van Wert county, voted dry by 52 majority; Franklin, Warren county, went dry by a 34 majority; Lebanon, Warren county, voted wet by 54 majority.

Broken promises are not all due to carelessness.

## LAST NATIVE OHIO INDIAN IS DEAD IN OTTAWA INFIRMARY.

ASSOCIATED PRESS TELEGRAM  
Toledo, O., March 23.—Mrs. Victoria Cadaract, aged 105, died last night in Ottawa county infirmary near Oak Harbor. Mrs. Cadaract was a Chippewa Indian, and was the last known of the native Ohio Indian of the full blood. Until ten days ago she lived alone in a cabin near Curtice. She was found there, unconscious, with a hip dislocated. She was never able to tell how the accident occurred. Mrs. Cadaract's husband died more than fifty years ago, leaving her with five small children. They lived in a shack in the woods, fishing, hunting and farming in a small way.

## Women Will Work For Men If Italy's Army Is Mobilized

ASSOCIATED PRESS TELEGRAM  
Rome, via Paris, Mar. 23.—A movement is under way in Italy to substitute women for men in the work of industry and commerce in case of complete mobilization. It is proposed that the women be paid the same wage as men received by male workers, with the provision that part of it be turned over to the families of men called to the colors. The plan provides that the female workers shall surrender their posts to the soldiers when they are disbanded. An office has been opened where women may register and express their opinion as to what work they are best able to do in case of need.

## TRY THIS TO DARKEN GRAY HAIR

Harmless—Not a Dye—Acts on Hair Roots.

If your hair is gray streaked with gray, prematurely gray, thin or falling, apply, for a few times, Q-Ban Hair Color Restorer on your hair and scalp with the guarantee of a reliable dealer that it won't cost you one cent unless it beautifully darkens your gray hair and promotes its growth. It acts on the hair roots making gray hair healthy so the gray hair is beautifully and quickly darkened so evenly, naturally and thoroughly that no one can tell it has been used. In addition Q-Ban stops itching scalp, dandruff and falling hair, and makes gray hair thick, fluffy, soft, lustrous, beautifully dark and abundant. Q-Ban is not sticky or messy, harmless and makes scalp and hair clean and feel pleasant. 50c for a big 7 oz. bottle. At R. W. Smith's drug store, Newark, O. Out of town folks supplied by parcel post.

## NO CAMPS NEAR BIG EXPOSITION

ASSOCIATED PRESS TELEGRAM  
Washington, 23 The war department today declined to approve a request that camps of field service for the organized militia be established this year near the Panama-Pacific exposition at San Francisco.

The man who is his own worst enemy is generally more companionable than the man who is his own best friend.
